May we substitute in case varieties asked for are not obtainable owing to war conditions? We always give better value if a change becomes necessary. The W. R. Co. give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any Seeds, Bulbs or Plants they send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

THE AUTHOR.—All who have taken an active interest in the welfare of Canada must be aware how potent a personality has been that of the late Wm. Rennie, Sr., in the furtherance of the highest agriculture in this Dominion. The leading governing authorities on many occasions called for and followed his counsels on matters of serious import to Canadian agriculture, thus publicly recognizing him as an expert agriculturist of wide experience. Such a reputation, in a land of agriculturists, could only be gained by actual merit, and those who were acquainted with this pioneer of good farming are unanimous in their opinion that he was fully worthy of the position he held.

# HOW ABOUT YOUR LAWN?

The Finest Lawns in Canada are Made with RENNIE'S "XXX" Lawn Seed. which produces a perfect and permanent sward, luxuriant, rich and green, in four to six weeks' time; also valuable for quickly renovating worn-out lawns. Used by thousands from Halifax to Victoria.

REND SEED IS BY FAR THE BEST MIXTURE OF GRASSES OFFERED FOR THE

PURPOSE OF QUICKLY PRODUCING A PERMANENT LAWN

It is prepared from our own formula, and is a careful blending of varieties adapted to producing the thick growth and velvety appearance so much sought after. The grasses composing this mixture grow during different seasons of the year, so that a deep green, velvety sward is maintained year after year, and without burning brown in summer, its constant luxuriance rivalling the famous lawns of Old England. Whether you want to seed a small grass plot in your yard, or a lawn of more pretentious size, you should

use this grass mixture. By Express at purchaser's expense, lb. 40c., 10 lbs. \$3.50. DELIVERED FREE IN CANADA (By Mail, Express or Freight at our option). 45c. per lb.; \$4.00 for 10 lbs.

### **RENNIE'S PUTTING-GREEN SEED**

Noted for grassee with that soft, velvety appearance, and such as produce the closest possible sward. All grasses with a coarse tendency have been eliminated from our Putting-Green Seed. To make a new putting-green of standard size, 60 ft. sow 40 lbs. of seed, and 10 to 12 lbs. annually. Price, delivered, lb. 45c; 10 lbs., not prepaid......\$3.50 BOOK ON LAWNS AND GREENS.—Free to green keepers and others who desire the latest information on the building of a new Club green or renovating an old lawn.

[1916]

## **RENNIE'S GOLF LINK GRASS SEED**

FOR PUTTING-GREENS AND THE FAIR-GREEN.—We have given considerable attention to this branch of our business and pride ourselves in having produced some of the most beautiful putting-greens yet seen in Canada. It is always a pleasure for us to give information either as to the building of a new club green or the renovating of an old turf. RENNIE'S FAIR-GREEN SEED (Fancy Quality).—This is a specia mixture of the finest grasses that will stand the wear and tear and retain its velvety appearance. Many of the largest golf links in this country use this mixture. To make a fair-green, sow 75 lbs. per acre, and 20 lbs. per acre annually. Price, delivered, 1b. 40e; 10 lbs., not prepaid...\$2.50

#### RENNIE'S TOUGH TURF GRASS SEED FOR ATHLETIC FIELDS

"TOUGH TURF" is a special blend of deeprooting, fine-leaved, turi-forming Grasses, especially suited for ball grounds, cricket grounds, and other athletic fields. This mixture forms a thick, strong, quick-growing, enduring turf that will stand any amount of hard usage without showing wear and tear. Price, delivered, lb. 40c: not prepaid, 10 lbs......\$2.50

#### RENNIE'S PURE DUTCH LAWN CLOVER

Many prefer the pure White Dutch Lawn Clover Seed to a mixture of grasses, and the fact cannot be denied that a lawn of this only is magnificent. Dutch Clover is a good thing to sow along with other grasses, as it helps to fertilize and enrich the soil, materially assisting their growth. Fancy clean seed. Price, delivered, Ib. 85c. See page 53 for price on quantity.

#### FANCY KENTUCKY BLUE GRASS SEED

This grass makes a good lawn used alone, and is preferred by many. Our well-balanced mixtures, however, have given much better results. Price, dellvered, lb. 35c; not prepaid, 10 lba.

#### A Magnificent Green Sward from Rennle's Tough Turf.

## **Rennie's Novelties and Specialties in Flower Seeds**

NEW RED SUNFLOWER

## NEW RED SUNFLOWER

## SILVER PINK SNAPDRAGON

## IPOMŒA QUAMOCLIT HYBRIDA

2057. CARDINAL CLIMBER (Ipomœs Quamoclithyhrids).—This hybrid Ipomœa is considered one of the most brilliant and distinct annual climbers introduced. A rapid grower, often attaining the height of 30 feet or more. The deeply laciniated, fern-like foliage and flery cardinalred flowers are borne in profusion from July to frost. The flowers are about 14 inches in diameter, and are borne in clusters of five to seven blooms. Seed may be sown indoors during April, but it is best to wait for warm weather and sow outdoors in a sunny position. Soaking the seeds in warm water before planting hastens germination. Pkt.... 25c

## DELPHINIUM—PERENNIAL LARKSPUR

2086. DELPHINIUM, GOLD MEDAL HYBRIDS.—This splendid strain is of strong, vigorous habit, with immense spikes, 2 to 3 leet long, of large flowers mostly in fine shades of light blue. We doubt very much if this wonderful strain can be surpassed, and we recommend all our patrons desirous of obtaining some choice plants to grow this strain. Pkt. 25

## HUNNEMANNIA FUMARIÆFOLIA

The descriptions given of the following Novelties are those of the introducers. In this connection we desire to say that all are from the best possible sources of supply, and have been selected by us with every regard for the reliability of the introducers.

## THE SIX KING ASTERS

1916

This magnificent class of Asters is distinct from all others in the character of the flowers. The long, narrow petals are folded lengthwise, appearing almost as though quilled. The flowers are of great size and substance, and last longer when cut than any other class.

The plants are large, and the stems exceptionally long and strong.

White King and Pink King are of more upright habit, while Crimson King, Lavender King, Violet King and Rose King are of branching habit; blooming, as they do, with our Late Branching, they make a very desirable addition and should be grown in every garden.

## LILAC QUEEN ALYSSUM

## RENNIE'S GIANT-FLOWERING CYCLAMEN

Flowers of extraordinary size and of great substance. The leaves are proportionately large and beautifully marked. These are among the most beautiful winter and spring-flowering plants for the window and greenhouse. Not only are the flowers of striking beauty, but the foliage is also highly ornamental. Sow seed early, and do not permit same to become checked. When grown cool, most satisfactory results are obtained. Our strain is selected by a well-known English Cyclamen grower.

## DIMORPHOTHECA AURANTIACA

## GERBERA JAMESONII HYBRIDA

TRANSVAAL DAISY (Gerbera).—This beautiful half-hardy perennial is a splendid pot-plant for greenhouse or conservatory, but is also grown in the garden and used as a cut-flower. The daisy-like flowers are 3 to 4 inches across, and are borne on strong stems 12 to 18 inches long. It can be grown easily from seed, and will flower the first year if sown indoors in April and transplanted later.

#### **RENNIE'S SEED ANNUAL** [1916]

## **RENNIE'S MASTODON PANSIES**

Our Giant Pansies are the finest strains from the world's most celebrated growers. These have been carefully re-selected and bred up to their present surpassing excellence, and for giant size, substance, form and coloring we have never seen Pansies to compare with them.

- 2366. MASTODON WHITE .- Dark centre. The finest and largest white
- 2368. THE MADAME (New).—The only new solf Pansy of this century. It is a genuine royal purple self, of fine form, great substance, and enormous size. We have never seen a basket of Pansies that could compare in beauty and richness of color with the Madame. The best Pansy on earth for the best people on earth—a true "Elk's Purple." Pkt.
  2369. MASTODON MIXTURE.—Named varieties and special strains are grown separately and the seed collected by hand and carefully blended into what we believe to be the finest mixture ever offered. Pkt.
  25e
- A leaflet, "How to Grow Pansies," is included in all orders for Pansy seed if asked for when ordering.

## **NEW SPENCER OR ORCHID-**FLOWERED SWEET PEAS

SPENCER OR ORCHID-FLOWERED SWEET PEAS are distinguished by their most exquisite form of flower, waved petals, their wonderful vigor in plant, stem and flower, and their ability to produce, as a rule, four gigantic blooms on one long, stout etem. For general list and special mixtures, see page 74.

We issue a leaflet on the culture of Sweet Peas, which we will send with each order for Sweet Peas, if requested.

MASTODON

## **RENNIE'S SELECT IRISH** HARDY HYBRID-TEA ROSES

These Irish Roses are unquestionably the true perpetual hybrids; the strong infusion of Tea blood into the old perpetuals has, by judicious hybridisation, produced in the last decade an entirely new race of Roses. The superb vigor, the healthy and abundant growth and foliage, the profusion of bloom, the exquisite coloring and beautiful formation of the flowers and buds of this new race, at once place it without a rival in the rose garden.

Extra strong 2-year-old bushes, each 75c, doz. \$7.25 (except where noted) delivered by mail. Heavier plants sent when ordered by express (not prepaid).

N.B.-Roses recommended by the Experimental Farm, Ottawa, are marked \*\*. Sorts not marked are new varieties, have not been tested there, but are considered hardy. Ask Publications Branch of Department of Agriculture, Ottawa, for Bulletin on "Hardy Roses."

- \*\*BRITISH QUEEN (Irish) (McGredy).--White, of pure color, in the bud stage it shows a slight flush, which disappears as the bloom opens; flowers large, of fine form, growth vigorous and branching, very florifer-ous, and sweetly fragrant.
   \*\*CARINE (Irish) (Dickson).--Blush buff, shaded and flushed orange carmine; a beautiful formed flower of delightful coloring; a grand garden Rose.

- garden Rose.
   DOROTHY RATCLIFFE (Irish) (McGredy).--Coral red, shaded yellow and lawn, becoming paler as the flower expands.
   \*DUCHESS OF WELLINGTON (Irish) (Dickson).--Intense saffron-yellow, stained with rich crimson, which, as the flower develops, be-comes deep coppery saffron yellow. Delightful fragrance. A great acquisition for garden or decorative purposes.
   DUCHESS OF WESTIMINSTER (Irish) (Dickson).--Dainty clear rosy-madder; blooms large, full and perfectly formed. Very sweetly per-fumed, and free-flowering.
   EVELYN DAUNTESEY (Irish) (McGredy).--The blooms are beauti-fully pointed, of great depth. The color is a soft salmon, very distinctly stained carmine-rose, with a deeper colored centre, a lovely warm tint. A most attractive and pleasing variety.
   GENERAL-SUPERIOR ARNOLD JANSEEN.--Glowing deep carmine.

- GENERAL-SUPERIOR ARNOLD JANSSEN .- Glowing deep carmine.

- GENERAL-SUPERIOR ARNOLD JANSSEN. —Glowing deep carmine. The flowers are long, full and perfumed; finely formed bud on perfect stems. The plant is vigorous, compact and continually blooming. Unsurpassed for forcing, bedding and cut flower purposes.
   GEORGE DICKSON (Irish).—Very strong, vigorous, flowers of the largest size; perfect in shape and unique in color, which is velvety black crimison, the back of the petals being heavily veined with pure crimson maroon. Delightfully scented.
   KING GEORGE V. (Irish) (Dickson).—Growth vigorous and very branching; flowers very large and full, opening freely. Color rich blackish crimson, with deep violet flush. Awarded the gold medal of the Festival of Empire, London, 1911.
   \*\*LADY BARHAM (Irish) (Dickson).—Deep flesh coral pink; enormous flowers of perfect globular shape. A strongly tea-perfumed, perfectly-formed rose of majestic appearance. A most indispensable rose to ex-hibitors.
- hibitors: LADY HILLINGDON (Irish).—A recent introduction, of a beautiful coppery shade of apricot-yellow, beautiful in the bud; a strong, vigorous grower, and very free-flowering. \*LADY PIRRIE (Irish) (Dickson).—Deep coppery salmon-red; inside of petals apricot-yellow, flushed fawn and copper; an ideal variety.

- LESLIE HOLLAND (Irlah) (Dickson).-Deep scar-let crimson, heavily flamed deep velvety crimson, very large full flowers of immense size and great lasting properties, retaining its brilliant color in the hottest sur
- hottest sun. \*\*MABEL DREW (Irish) (Dickson).-Deep cream, passing to intense canary-yellow as the bloom de-velops; flowers large and full, with a delicious perfume. Undoubtedly one of our very best pro-ductions. Gold medal. MARGARET MOLYNEUX (Irish) (Dickson).--Varying from safiron-yellow, shaded apricot and peach in the bud stage to canary-yellow as the semi-duble blooms erpend. A decorative rose of the

- "MELODY (Irish) (Dickson).—Intense pure deep saffron-yellow, with primrose edged, a delightful color harmony. The blooms are carried on erect stems and are of good size, strongly perfumed and ware for a strong to perfume data and the strong to perform data and the s
- stems and are of good size, strongly perfumed and very freely produced. \*\*MRS. AMY HAMMOND 'Irish) (McGredy).—A blend of ivory, amber and apricot. Perfect shaped flowers, long and pointed petals Superb variety. \*\*MRS. CHARLES E. ALLAN (Irish) (Dickson).— Pale neutral orange, gradually changing as the flower expands to clear ochre and yellowish buff. A fine garden variety.

- flower expands to clear ochre and yellowish buff. A fine garden variety.
   MRS. CORNWALLIS WEST (Irish) (Dickson). Delicate pink on the purest white, blooms large and of the greatest substance, the petals are smooth, shell-shaped and leathery. Gold medal.
   MRS. GEORGE SHAWYER (Irish). A beautiful, brilliant, clear rose-color. The flowers are very large, of good form. This is be-coming a popular forcing variety, and will also prove a good bedder.
   \*MRS. WAKEFIELD CHRISTIE-MILLER (Irish). Entirely distinct, the petals having wavy or crisped edges; the flowers are very large and full double, of a soft pearly blush shaded salmon; the outside of the petals a clear vermilion-rose, an attractive color combination. Habit of plant vigorous, free and perpetual-flowering.
   OLD GOLD (Irish) (McGredy). Vivid reddish orange, with rich cop-pery-red and apricot shadings; dark coppery foliage. Continuous flowering, good grower, and mildew proof; sweetly scented. Gold medal.
   \*OTHELLO (Irish) (Paul). Deep maroon red. The flower is large and well formed; growth perfect.
   QUEEN MARY (Irish) (Dickson). A vigorous-growing, free-flowering Rose of great beauty and refinement; flowers of medium size and fine form; color bright canary-yellow, crayoned at the edges with pure, deep carmine, a charming color combination and most delightful con-tract, as the colors do not co-mingle. Awarded Silver Gilt Medal.
   SUNBURST. A superb Rose, of good vigorous habit; flowers large, of elongated cup form, especially handsome in bud form; color a rick cadmium yellow with orange-yellow centre.
   \*\*THERESA (Irish) (Dickson). Deep reareserption, passing to silvery pink; semi-double; delicately tea perfumed. A charming garden decorative rose.

- lecorative rose
- \*VISCOUNT CARLOW (Irish) (Dickson).--Warm carmine pink, stained on deep cream, the stiff shell-shaped petals whilst developing being distinctly edged carmine. Dark bronzy foliage, and of ideal habit.

**RENNIE'S SEED ANNUAL** [1916]

## **RENNIE'S GLADIOLUS** SPECIALTIES YOU ARE SURE OF FINE FLOWERS IF YOU PLANT GLADIOLUS

Being large growers of Gladiolus bulbs, we are able to serve our customers with clean, healthy stock. Gladiolus are the most attractive of all summer flowering bulbs. Wonderful improvements have been made recently in the size and colorings of these flowers. Having the greatest faith in the future of the Gladiolus, we are increasing our stocks and plantings by adding all new hybrids, both in the named kinds and high grade mixtures here offered. The culture of the Gladiolus is of the easiest. Set the bulbs about 3 inches deep and 7 or 8 inches apart each way. Any good garden soil will make strong plants and good bloom, but for the finest results use manure and plenty of water. After the flowers are past, dig the bulbs up and dry them

under cover in the open air for a month and then store in dry soil till next winter, when they may be reset.

It may be that the comparative high prices of these fine new sorts have kept them from being offered here before, but we believe that when the planter realizes that they are worth the price, and comes to know what grand flowers they are, our stock will soon go, with the result that many gardens will be made beautiful.

- BLUE JAY.-Tall, imposing spike. Flowers large, wide spreading on long fine spike. Color beautiful deep blue with bright crimson throat and large conspicuous canary-yellow blotches spotted blue. This combination is exceedingly odd and beautiful. True type and large size. Each 30c, doz ..... .\$3.00
- DAWN (Tracy's).— The most beautiful shell-pink Gladiolus ever offered. A long, graceful spike of magnificently formed flowers, all open at one time. The bloom lasts well, while its color and texture make it indispensable as a cut flower and for bedding. Each 20c, doz.....\$2.00
- EUROPE.—A sensational novelty, spikes of which average 5 feet and are dressed with gigantic flowers of purest white without a trace of any other color. The spikes are very broad, as three flowers appear usually together in a line; a single spike averages 25 blossoms. Each 30c. doz.....\$3.00
- GLORY OF HOLLAND .- A beautiful pure white, with lavender anthers; flowers very large; first-class in every way. Each 15c, doz......\$1.50
- INDEPENDENCE.—A brilliant rose-pink, marked with white and maroon in throat; straight, strong spikes; a splendid sort for cutting. Each 15c, doz...... \$1.50
- LA LUNA.—An extremely choice variety on account of the large size of bloom and its splendid color. The exquisite pointed buds appear in primrose yellow, a color which changes, as the flower opens, to a clear creamy white; a very conspicuous blotch of blood red adds beauty to the combination; robust grower. Each 30c, doz......\$3.00
- LILY LEHMANN.—A delicate combination of pink and white, unusually large and strong growing for this type. Purest ivory-white flushed pink at tips of petals, with conspicuous lavender anthers. Each 20c. dez.....

NIAGARA

7

- MRS. FRANK PENDLETON, JR.-This Gladiolus is delicately flushed RES. TRANK PENDLETON, JR. — Inis Gradious is dericately fushed salmon-pink color extending to the reverse side of the petals as well as in the centre. Its wide-open blooms, arranged loosely on strong, wiry stems, which fall gracefully when placed in vases, and the deep, rich marcon blotch on the three lower petals make a combination of distinct merit not possessed by many of our best Gladioli. Each 35c, doz. 33.50
- NIAGARA.—An entire new color in Gladiolus. To describe it intelli-gently one must imagine a shade of rich cream combined with canary-yellow. The form and habit of this variety is exactly like America, except that the spike grows taller. The individual flowers are very large, and borne in pairs opposite each other. Each 25c, dez.... \$2.50
- PANAMA.-Exquisite and magnificent, being fully the equal of America in form and size, but superior to it in color, being more on the order of salmon-pink. Wherever this variety has been exhibited it has secured first premiums. European growers have endeavored to secure the entire stock, in some cases offering \$1 each for the bulbs or bulblets Each 25c, doz..... .....\$2.50

PEACE.—One of the grandest white introductions of 1912, that will retain its place among the good white varieties. The pale lilac feathering on the inferior petals, together with its strong, broad, rich green foliage and spike, make it a most desirable Gladiolus in any collection. This variety seems to produce blooms of a better white later in the season than most sorts. Bulbs planted late in June have produced wonderful flowers in September. Each 20c, dez.\_\_\_\_\_\$2.00

- VICTORY .- Delicate sulphur yellow, lower petals shaded deeper, and a bright maroon blotch ......\$1.50 on throat. Each 15c, doz ....
- VELVET KING .- A fine, bold, dark red of velvety finish; plant vigorous and free bloomin Each 15c, doz .....
- AR.—A flower of gigantic proportions; of deep, ox-blood red, shaded crimson-black, and borne on strong, stiff spikes, with beautiful, deep green, massive foliage. There is no Gladiolus to date that outrivals this splendid novelty for strength of habit, size of bloom or brilliance of color. Each 25c, doz ..... .....\$2.50
- of a rich green color. Each 30c, doz.....

## **RENNIE'S MIXTURES**

BENNIE'S GOLD MEDAL MIXTURE.—This contains some each of the three sections, and so great is the diversity in color that customers run practically no risk of getting any two alike; by far the finest mixture of Gladioli ever offered. Each 18c, dez. 80c, per 100.......\$6.00

RENNIE'S SEED ANNUAL 1916]

## **RENNIE'S VEGETABLE NOVELTIES AND SPECIALTIES**

COLUMBIA CELERY. 124. An exceptionally fine, early variety, which for size and shape is unsurpassed. A rich, yellow color, similar to the well-known Golden Self-blanching, which it resembles very much when trimmed and Matures early, and is of exceedingly fine flavor. 1 lb. \$1.75, oz. 60c, pkt.... .10c

GOLDEN EVERGREEN SWEET CORN.-159. A late yel-low sweet corn, although earlier than Country Gentleman. The kernels are long and pointed, the cob very slender, and the whole ear a trifle larger than Golden Bantam. Planted with Golden Bantam, yields in succession, and on account of their similar color may be planted next to each other. Quality is exceptionally good, very much the same as Golden Bantam. **5 lhs. \$1.40**, **lb. 35c**, **pkt**......**10**c

RENNIE'S XXX EARLY SWEET TABLE CORN.-

SILVER COS LETTUCE

RENNIE'S XXX SOLID HEAD LETTUCE. 211. Immense solid heads; crisp and tender; perfectly blanched heart. This new, immense heading lettuce, though extremely large, has been so perfectly developed that it does not show the least sign of coarseness or bitterness. Even the outer leaves are delightfully tender. 2 1b. 75c, oz. 25c, pkt.... 10c

YELLOW ICECREAM WATER MELON. 244. This unique Water Melon is aptly described as the "par excel-beautiful green and shape elongated. If one could have only one variety of Water Melon it should be Yellow Ice Cream. 210.60c, ez. 20c, pkt.......10c

SUTTON'S MAGNUM BONUM PEAS.—299. The long, broad, pointed pods are excellent in form and color, packed with large peas of the highest quality. 5 lbs. \$1.75, lb. 40c, 1 lb. 15c, pkt. 10c

MARKET KING TOMATO. 424. For the home garden as well as for market this variety will give entire satisfaction. The fruits are of a purplish-pink color and very attractive to the eye; this, together with its uniform size and shape, make it one of the best varieties of Tomatoes recently introduced. The Tomatoes are medium to large in size, nearly round, perfectly smooth, solid, and of excellent flavor. 1 lb. \$1.75, sz. 50c, 1 ez. 30c, pkt. 10c

RENNIE'S XXX EARLIEST ROUND SCARLET SKIN TOMATO. 445. This splendid sort will yield the first pickings of ripe Tomatoes, and that at a time when the very highest prices can be got. The flesh is remarkably solid, with very few seeds and of particularly fine quality, meaty and taky. Or file, her Stophet and tasty. Oz. 60c, 1 oz. 35c, pkt.....

## JAPANESE PANICLE OR BRANCHING MILLET

JAPAN BRANCHING MILLET. A most promising variety, of which astonishing yields are reported. It is very early, and is claimed to be rust proof. The seed is very beautiful and distinguished in appear-yield both of seed and fodder. It can be fed to horses and other stock without injury, even when cut so late that the seed has formed. Price, Fancy Recleaned, lb. 30c, postpaid. See page 53 for hulk prices.

## SUDAN GRASS

SUDAN GRASS—A New Annual Forage Crop.—Sudan Grass resistant hay crop of great merit. In dry sections it yields more forage than millet; the hay, which is relisted by stock of all kinds, is of better quality than millet hay. As a result of extensive tests the Department of Agriculture reports that Sudan Grass will be extremely valuable in the North-West as well as the East, which have no other satisfactory hay crops. After the ground has become warm, seed may be sown broadcast at the rate of from 16 to 24 lbs. per acre; if planted in drills 18 to 24 inches apart from 4 to 6 lbs. per acre will be sufficient. Lb. 45c, by mail. See page 58 fer bulk prices.

## WHITE BLOSSOM SWEET CLOVER

SWEET CLOVER—Alfalfa's Twin Sister.—WHITE BLOSSOM (Melilotus Alha).—Sweet

Clover is grown for bees, for hay, for green forage, for its value as a pasture plant, and as a soil fertilizer and restorer. It gives promise of becoming a rival of Alfalfa on many soils. Until recently Sweet Clover has been regarded by many as a troublesome weed. Its real value is beginning to be appreciated. It is a biennial plant, and bears close resemblance to Alfalfa, but it is larger and coarser in growth. It will grow on soils on which Alfalfa cannot thrive, and will make excellent growth on lands so hard and barren that they will sustain scarcely any other vegetation. It is the first plant to grow in the spring, and furnishes an abundance of succulent pasturage, equal in quality and value with Alfalfa.

Some claim that stock will not eat it, but as soon as they acquire a taste for it they frequently consume it in preference to Alfalfa or other pasturage. Early spring is an excellent time to teach them to eat it. Cattle fed upon Sweet Clover will not bloat.

When grown for hay, one crop and sometimes two may be cut the first season. The second year, two or three crops may be cut. It should be mowed just before it commences to blossom and before the stems become hard and woody. As it is tall growing and stools very freely, the yield of green forage is tremendous.

We recommend the cultivation of Sweet Clover for pastures, for hay and for renewing worn out lands. If handled properly it will well reward the grower. We suggest that you do not let it go to seed. It can then be controlled at all times. Lb. 45c, postps1d. See page 55 for bushel prices.

[1916] RENNIE'S SEED ANNUAL

# CANADA'S SHARE IN THE WAR

## MEN, MUNITIONS, FOOD.

CANADA'S DUTY Our share in the world's greatest struggle in history is not confined to the number of men being sent to the front. We are also manufacturing munitions. In addition to these we are a great food-producing Dominion. Let us show to the world the extent of our agricultural resources and make 1916 a record producing year.

TILLING THE SOIL Never was there a more urgent call than NOW for the production of an abundant supply of food. Our Nation's needs are great. You can help by growing more. Let every available foot of fertile soil be sown and cultivated this season.

> ARTICHOKE 1 ez. for 300 plants. CULTURE .- Sow in April or May in to permanent beds (in rows and hills) 3 ft. apart, and 2 ft. between the plants. 1. LARGE GREEN GLOBE. - Culti-vated for its flower heads, which are cooked like Asparagus. Oz. 60c, pkt. 5c

ARTICHOKE ROOTS Fr.-TOPINAMBOUR

FREE BY MAIL.-- We send Seeds, Bulbs and Plants free by Parcel Pest at the prices named in this Catalogue, except where otherwise stated. This brings them to the very doors of our customers without trouble or expense. Of course, we must have the privilege of sending either by mail or express as we deem best and cheapest.

When buyer asks that goods be sent only by express or freight, we do not prepay the charges, and buyer may deduct 10c per pound from prepsid prices, but so deduction to be made on prices of Plants, Bulbs and Shrubs, as we send much larger atock than by mall.

GUARANTEE .- There are hundreds of contingencies continually GUARANTEE.—There are hundreds of contingencies continually arising to prevent the best seeds always giving satisfaction, such as sowing too deep, too shallow, in too wet or too dry soil; insects of all descriptions destroying the plants as soon as or before they appear; wet weather, cold weather, frosts, chemical changes in the seeds induced by temperature, etc. For the above reasons it is impracticable to guarantee seeds under all circumstances. We give no warranty, expressed or implied, as to de-scription, purity, productiveness, or any other matter of any seeds we send out, and we will not be in any way responsible for the crop.

Sugar Beet and Mangel Wurzel.-See "Field Root Seeds," page 40

**RENNIE'S SPINACH-BEET** 

#### **RENNIE'S SEED ANNUAL** [1916]

## CABBAGE

#### (Oz. will produce 2,000 plants, 5 oz. per acre.)

#### Fr.-CHOUX-POMMES.

CULTURE .- For early use, plants should be started in hot-beds in February or March; for later crops sow in the open ground early in spring; transplant two feet apart. A mixture of salt and ashes applied to the hill when planting is excellent for promoting growth and keeping down the maggot. They require a deep, rich, well-manured soil, and thorough working. Hoe often; draw earth up around the plants. Cabbage should not follow cabbage successively.

## **RENNIE'S XXX EARLY SUMMER** CABBAGE

#### The Best Second Early. Large Round Heads, 10 to 12 lbs. Each.

The Beel Second Early. Large round reads, 10 to 12 lost Each. 84. In pur early trial experiments this variety showed so many outstand-ing points of merit that we decided to develop from it the highest type of early summer cabbage possible to procure. By careful breeding and selection, extending over many years, we have at last fixed a type that is undoubtedly far in advance of all the other class sorts. It forms large, flat, oval round, solid heads usually weighing 10 to 12 lbs. each. The quality is excellent, tender and sweet. It comes in a few days later than Early Jersey Wakefield, but is more than double the size and of much better quality. Lb \$3-50, \$ lb. \$1.00, oz. 30c, pkt....10c

EARLY JERSEY WAKEFIELD CABBAGE

## **RENNIE'S FIRST CROP**

RENNIE'S FIRST CROP .- This is undoubtedly the fastest growing of all the early 78. Cabbages. Habit dwarf, with scarcely any outer leaves. The hearts are large, tender, criep, and delicate in flavor; but the chief merit is that they mature in so short a time. The heads are small and it requires very little room in the garden. From seed sown in early spring the crop is ready sooner than any other sort.  $\frac{1}{2}$  lb. \$1.00, oz. 30c, pkt......10c

## EARLY JERSEY WAKEFIELD, IMPROVED

EARLY JERSEY WAKEFIELD, IMPROVED.—Heads remarkably hard and solid; pyra-midal in shape, generally pointed at the end; of excellent quality and large size for so early a cabbage. Lb. \$3.00, 1 lb. \$5c, oz. 25c, pkt.

## **CHINESE CELERY CABBAGE**

COPENHAGEN MARKET CABBAGE

### **COPENHAGEN MARKET**

76. COPENHAGEN MARKET.-This superb, new Cabbage has created 5. COPENHACEN MARKEI.—In superp, new Cabbage has created quite a sensation among market growers during a past season. It is undoubtedly without a rival as the finest round-headed Cabbage in cul-tivation. The heads average about 10 lbs. each in weight, and are very solid, with small core, and of fine quality. A point in its favor as a market sort is that the heads all mature at the same time. As early as Jersey Wakefield and fully one week earlier than Early Summer. ł lb. \$3.00, oz. \$1.00. pkt..... ..... 10c

## **RENNIE'S DANISH SUMMER ROUNDHEAD**

77. RENNIE'S DANISH SUMMER ROUNDHEAD .- Matures earlier than the Danish Ball Head; heads are round, have a short stalk, and are very hard. The interior leaves are pure white and of sweet flavor. It is a bealthy variety and able to stand hot weather and resist disease. 

The best is the cheapest, therefore buy Rennle'n Seeds and he assured of a good garden and an abundant harvest before you now a seed.

**RENNIE'S ROUNDHEAD** 

GLORY OF ENKHUIZEN CABBAGE

85. EARLY WINNIGSTADT (Extra).—One of the best of the second early sorts, very hardy and sure heading. Owing to its compact and upright habit of growth and peculiar texture of its short, thick, rich dark green leaves, the variety seems to suffer less from the cabbage worm than most other sorts. Head of medium size, sharply pointed, very hard and of good quality. Lb. \$2.00, ½ lb. 60c, ez. 20c, pkt.....5c

#### BEST SECOND EARLY SORTS

88. RENNIE'S PRIZE HARD HEAD.—About a week later than Early Summer, but much larger, measuring about twelve inches in diameter and weighing about ten to twelve pounds each. The heads are hard and solid and of fine quality. Very fine for either winter or summer use. One of the surest varieties to make a crop under all conditions, and does well in all seasons no matter when planted. Lb. \$3.00, ½ lb. \$5c, ez. \$5c, alt. nkt.

## DUTCH WINTER OR HOLLANDER

89. DUTCH WINTER OR HOLLANDER.—Is the best of cabbages for late spring sales; no other will sell against it. The heads are medium size, averaging about 8 lbs., very solid, a distinct, fine, white color, good quality. They are uniformly excellent keepers. Often they are as solid and perfect when taken out in the spring as when put away in the fall. Rennie's Extra selected stock. 1 b. \$2.50. cz. \$0c. pkt. 10c

1916

This Excellent Solid-Headed Early Cabbage Comes from Holland.

- 81. GLORY OF ENKHUIZEN.—Our records show this grand Cabbage from Holland to be one of the best either for an early or second early sort. The heads are frequently twice as large as the old Early Flat Dutch, and weigh three times as much. The large solid heads, fine ribbed and of first quality. The globe-shaped outer leaves are very small, and do not crowd when closely planted. Lb. \$3.50, ½ lb. \$1.00, oz. 30c, pkt ...
- 82. EXTRA EARLY ROCK (Early Spring).—Every head as uniform as if moulded. and remarkably solid even when young. Few and small outer leaves. Small veins, Of finest texture and most delicate flavor. In size the heads are smaller than Henderson's Summer. Lb. \$3.00, 1 lb. 85c, oz. 25c, pkt....

HENDERSON'S EARLY SUMMER.—One of the finest early Drumhead Cab-bages in cultivation. Excellent for early cutting. Lb. \$3.00, 1 lb. 85c, oz. 25c, pkt. 5c

## AUTUMN-WINTER DRUMHEAD YIELDS 20 TO 80 LB. HEADS.

 AUTUMN KING.—Heads of largest size and very solid. T are flat and leaves set close. Lb. \$3.00, 1 lb. 85c, oz. 25c, pkt. The heads

1916

## Nou-to-NY

#### Fr.—CAROTTE. 1 oz. to 100 feet of drill; 3 to 4 lbs. per acre.

CARROT

CULTURE.—For early crops, sow as soon as the ground can be worked, for later crops from the beginning until the end of May, in rows 15 inches apart. Thin out the young plants to four inches, and keep the surface well open. Deeply tilled soil, of a light sandy nature, is the most suitable for carrots. Avoid sowing on newlymanured ground, which has a tendency to produce forked roots.

## **RENNIE'S XXX TABLE CARROT**

ENTIRELY CORELESS.

113. Rennie's XXX Table Carrot is the highest bred early carrot now in cultivation. It is of medium size, unsurpassed for table use, boiling, soups, etc. It is very tender all through, being entirely free from woody core. The roots are uniform in shape and size, 6 to 7 inches long by 1<sup>1</sup><sub>4</sub> inches in diameter, with small top and small tap root. Color, orange red. Delicate flavor. Lb. \$2.25, <sup>1</sup><sub>4</sub> b. 70c, oz. 25c, pkt. 10c

## CHANTENAY HALF-LONG

105. CHANTENAY HALF-LONG (Stump Rooted).-Very productive; especially desirable for market or home use. Splendid shape, fine deep scarlet color, roots tender, firm, and of the finest quality. Lb. \$2.00, 1 h. 65c. oz. 25c. pkt. 5c

## EARLY GEM OR OXHEART

RENNIE'S MARKET GARDEN

106. EARLY GEM (Guerande or Oxheart).—A desirable variety on soils too hard and stiff for the longer growing sorts, as it is not over 3 or 4 inches long. It is very finely flavored and colored a rich orange. Much thicker in proportion to length than the Early Horn; almost coreless. Lb. \$2.00, *i* lb. 65c, oz. 25c, pkt. 5c

## **RENNIE'S MARKET GARDEN**

111. IMPROVED RED (Pointed Root).—This valuable sort is preferred by many gardeners to any other variety. Top small, color deep orange, shape handsome and smooth, quality the best. Valuable for stock. Lb. \$1.50, ½ lb. 50c, oz. 20c, pkt. 5c

Field Varieties of Carrots.-See under "Field Root Seeds."

#### SEED RECLEANED WITH SPECIAL CARE.

We maintain the highest standard of germination possible in this seed, by painstaking care in recleaning and resifting it. This gives us well matured, plump seed; by means of the care we take, its germinating power is raised 25 to 30 per cent.

EARLY GEM

OR OXHEART

CARROT

[1916] RENNIE'S SEED ANNUAL

#### RENNIE'S WORLD'S BEST SNOWBALL CAULIFLOWER (GILT EDGE)

## CAULIFLOWER

#### Fr.-CHOUX FLEURS.

1 oz. for 2,000 plants.

CULTURE.—Considerable care is necessary to keep up a supply of cauliflowers from July to the end of the year. For early crops sow the seed in a gentle hot-bed about the middle of March, and for late crops sow in the open ground in June, and transplant like winter cabbage into rows two and a half feet apart, and two feet between each plant. A deep rich loam is the best to produce satisfactory crops of this favorite vegetable. Cauliflower will not head up well in hot, dry weather, hence the sowing should be so regulated as to bring it in either in early summer or late fall. In dry weather water frequently with liquid manure, and as they advance in growth hoe deep and draw the earth to the stems; as they begin to head, water frequently, and keep the soil open by deep hoeings, and break the large leaves over the flower to protect it from the sun and rain. On the approach of frost the plants which have not been headed may be planted out in a cellar, where they can be aired in mild weather, when they will form fine heads.

- 116. RENNIE'S WORLD'S BEST SNOWBALL (GILT EDGE).—This new strain is imported direct, exclusively for our large market garden trade, from the most famous (European) grower of the "Snowball" Cauliflower. The large, handsome heads, measuring eight to ten inches across, are pure snowy white, very close, compact, and of the finest quality. So extremely solid and deep, nearly globe-shaped are the heads, that they weigh heavier than all other Cauliflowers of the same size. <sup>1</sup>/<sub>4</sub> lb. §3.00, ez. §2.75, <sup>1</sup>/<sub>3</sub> ez. §1.50, <sup>1</sup>/<sub>4</sub> ez. §5c, pkt. 25c, <sup>1</sup>/<sub>3</sub> pkt....15c
- 118. RENNIE'S EARLIEST DWARF ERFURT (Extra Selected).—The earliest among early Cauliflowers. A sure header. Customers pronounce it the most profitable in cultivation. Remarkable for reliability in heading. Very dwarf, with solid, pure white heads of superior quality.  $\frac{1}{4}$  lb. §9.00, ez. §2.75,  $\frac{1}{2}$  ez. §1-50,  $\frac{1}{4}$  ez. 85c, pkt. 25c,  $\frac{1}{2}$  pkt....15c

RENNIE'S XXX SNOWBALL CAULIFLOWER

## **RENNIE'S XXX SNOWBALL**

10

- 117. Early Paris Demidur (Nonpareil).—Produces early fine white heads of good quality; unquestionably the best among the lower-priced cauliflowers; a sure header. 1 lb. \$3.00, oz. \$1.00,  $\frac{1}{2}$  oz. 60c, pkt......5c

119. Snowflake .- Large white heads of fine flavor. 1 lb. \$3.00, oz. \$1.00, oz. 60c, pkt.

#### **RENNIE'S SEED ANNUAL** [1916]

Fr.-CELERI. CELERY

1 oz. for 2.000 plants.

#### A FIELD OF OUR PARIS GOLDEN YELLOW CELERY

CULTURE .- Sow the seed (which is slow to germinate) from about February 20 to April 20 in shallow boxes indoors or sow in a finely prepared seed bed out of doors in April in straight rows so that the small plants may be kept free from weeds. See to it that the seed is not covered too deep and that the bed is kept moist, almost wet, until the seeds germinate, as plenty of moisture is essential to get a satisfactory growth. The seed will not germinate well if planted in a hotbed or where subjected to a temperature above 60° F. When the plants are one to two inches high, thin out and transplant so that they may stand two or three inches apart

125. GOLDEN-HEARTED DWARF .- Medium size and good keeping

TURNIP-ROOTED CELERY—Celeriac 

CHERVIL Fr.—CERFEUIL CHIVES Fr.—CIBOULETTE Hardy little perennial members of the onion tribe. The tops appear very early in spring and can be cut throughout the season. It should have a place in every garden

CHIVE ROOTS .- Bunch 15c, 3 Bunches for ...... 40c

each way. When they are four inches high, cut off the tops, which will cause the plants to grow stocky. Plants are usually set out when about five in. high.

## **RENNIE'S XXX GOLDEN SELF-**BLANCHING CELERY

A HEAVY, COMPACT, THICK, CRISP AND BRITTLE CELERY. 3. This very select strain, of French origin, has been found by the most critical experts to be a vast improvement over any preceding sort. It shows heavy and compact growth, thick, crisp and brittle stalks, with large, solid hearts, all blanching a waxen yellow. Oz. \$3.75, ½ oz. \$2.00, ½ oz. \$1.10, https://doi.org/10.1011/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j.j.com/j 133.

- hearts, all blanching a waxen yellow. Oz. \$3.75, § oz. \$2.00, § oz. \$1.10. pkt. 25c 127. PARIS GOLDEN YELLOW (Self-Blanching—Extra Select).—It is quite early, entirely self-blanching, and can be grown without any banking up or covering whatever, even the outer ribs assuming a yellow-ish white color. The heart is of a beautiful golden-yellow color, very large, crisp and solid. Unequalled in striking appearance, and decidedly one of the best keepers of the self-blanching varieties. Oz. \$3.00, § oz. \$1.00, pkt. \$5c, § size pkt. 15c 128. WHITE PLUME.—Handsome, crisp and solid; of a rich, nutty flavor; unsurpassed for fall and early winter. White Plume is the earliest Celery known. § 1b. \$1.75, oz. 60c, pkt. 5c 129. RENNIE'S GIANT WHITE.—Grows taller than Paris Golden, and the stalks are remarkably large, thick, solid and entirely stringless. It is the largest celery grown as regards width and thickness of stalks. Al-ways very crisp and britle, snapping like glass. The best keeper of all celeries. § 1b. \$1.75, oz. 60c, pkt. 10c 130. Giant Pascal.—A green-leaved variety developed from the Paris Golden, and second only to Rennie's Giant White for winter use. § 1b. \$1.50, oz. 50c, pkt. 5c

#### RENNIE'S XXX EARLY SWEET TABLE CORN

- HENNIE'S XAX EARLY SWEET TABLE CORN

   141. EXTRA EARLY PREMO.—Premo can be planted very early, for the young plants withstand slight forsts. The stalks grow about 5 feet high, and are very vigorous, generally bearing two well-developed ears to a stalk. These ears measure 1 to 2 inches longer than those of Cory. 5 lbs. 51.40, lb. 35c, pkt.

   142. First of All (Red Cob Cory).—Ready a week earlier than White Cory, making it very desirable not only for the garden, but extremely valuable to grow for the market. 5 lbs. \$1.40, lb. 35c, pkt.
   10c

   143. CROSBY'S EARLY SUGAR.—An excellent variety; very produc-tive 5 lbs. \$1.40, lb. 35c, pkt.
   10c

   144. PEEP O' DAY.—Claimed by some growers to be earliest Sugar Corn in existence. Our tests show it to be ready in about 50 to 60 days from the time of sowing. Ears 5 inches long, of good quality; a prolific sort for so early a variety. 5 lbs. \$1.40, lb. 35c, pkt.
   10c

   146. EXTRA EARLY WHITE CORY (Mamment White Cob).—Ready for use a few days later than First of All. Produces ears of good size, rich, sweet and juicy. Recommended for market gardeners. 5 lbs. \$1.40, lb. 35c, pkt.
   10c

- lb. 35c, pkt....

#### THE HOME GARDEN

The cultivation of a home garden is associated with so many rich rewards at the cost of small effort, that one season's trial is enough to turn anyone into an enthusiastic gardener.

## SWEET CORN Fr.-BLE D'INDE SUCRE

#### 1 lb. to 100 hills; 10 lbs. for an acre.

CULTURE.—Plant about the middle of May, in rows 4½ feet apart and the seeds placed about 8 inches apart in the row, or in hills three feet apart each way, depositing five grains in each hill, covering half-inch deep. For succession, plant every two weeks until July. Do not plant before ground has become warm.

### EXTRA EARLY SORTS EARLY MALCOLM

140. EARLY MALCOLM SWEET CORN.—Our grower says: "I have been growing Sweet Corn since 1878 and I have never seen anything so early." We offer in packets only this year, as stock is limited. Lb. 40c, pkt.....10c

## **RENNIE'S XXX EARLY TABLE CORN**

The Sweetest and Earliest White Kernelled Table Corn.

155. There are several varieties of Sweet Corn of excellent merit claimed to be the 5. There are several variences of Sweet Cora di excluent merit charmed to be the earliest in cultivation, but by actual comparative tests we are satisfied that this new variety, now introduced by us, is positively three days earlier than any other variety of anything like equal merit. In addition to earliness, it is valuable on account of its strict uniformity to type, constitution and productiveness. The ears are stout, evenly and compacily filled with tender, milky white kernels of years fine quality. Et by C100, but does not severe the culture of th very fine quality. 5 lbs. \$1.90, lb. 40c, pkt..... .10c

### **RENNIE'S GOLDEN BANTAM**

148. RENNIE'S GOLDEN BANTAM is a distinctly first early sort. Ready for the table much earlier in spring than the other first early varieties. The grains are a rich, creamy golden color, and meltingly tender, with a most delicious flavor when cooked. The ears are between 5 and 7 inches long, well protected by a close folding firm hust. This is a variety we can strongly recommend for extra earliness, extra hardiness, fine quality, ten-derness and delicious flavor. 5 lbs. \$1.40, lb. 35c, pkt. .........10c

okt.

**RENNIE'S XXX TABLE CUCUMBER** Early, Prolific, Continuously Productive. The Finest for Slicing. 182. We believe this splendid strain to be nearer perfection than any other variety of table cucumber yet developed. It is a greatly improved type of the White Spine family, being an early, prolific and continuous producer of uniformly large and symmetrical fruits. In color it is an intensely rich, deep green, faintly marked with light yellowish shading towards the tip. The compact and snow-white flesh is very closely grained, excellent for slicing and unequalled for its delightfully refreshing flavor. The vines are vigorously healthy, proof from mildew, retaining their fresh luxuriance, and bearing from the earliest the latest season. Lb. \$1.90, 1 lb. 60c, oz. 25c,

#### **RENNIE'S** SELECTED NONPAREIL

210. RENNIE'S NONPAREIL.—"Once tasted, always wanted," is the happy expression of an admirer, and this is the unanimous opinion of all who have eaten this splendid head lettuce, its chief merit being quality. Especially well adapted to open-air culture in Canadian soil and climate. The edges of the leaves are slightly fringed, and the leaves themselves are crumpled, but not really savoyed. The head proper is hard, tender and crisp, with a white or blanched appearance at the centre. The heads of this lettuce have been known to attain a weight of five pounds. ib 60c. or. 20c. ptt. 1 lb. 60c, oz. 20c, pkt.. . 50

- 202. MAY KING LETTUCE 202. MAY KING variety is a great favorite. It may be planted out of doors or under glass, and in either case will produce fine solid heads much sooner than any other variety. The outer leaves are yellowish-green, tinged with brown, while inside it is rich golden yellow. Ib. 60c, oz. 20c, pkt. 5c 204. GRAND RAPIDS (Forcing).—A strong grower, free from rot, and keeps crisp and tender, without wilting, when exposed for sale. Gar-deners use this sort largely for growing under glass. 1 th. 60c, oz. 20c, pkt.

RENNIE'S XXX SOLID HEAD LETTUCE

## l oz. for MUSK MELON

CULTURE.—Select a light, sandy, rich soil, after danger of froet is over and the ground has become warm and dry; plant in hills four to six leet apart each way, eix to twelve seeds to the hill. When up and all danger of insects has passed, pull all out except three plants. Cultivate until the vines cover the ground, and pinch the ends off the growing shoots to induce early fruiting. Ashes, lime, or even the attacks of insects. Do not plant when the dew is on to prevent the attacks of insects.

## **RENNIE'S XXX GOLDEN GREEN** FLESH MUSK MELON

Spicy Golden Green Flesh. Small Seed Cavity. Exceedingly Productive. 228. This remarkable new Munk Meion in

LEEKS-See page 24

25. This remarkable new Mumk Meles is the happy result of careful and clever hy-bridizing, followed by several years of critical selecting. It shows marked points of merit for elze, shape, netting, appearance, flavor, depth of flesh, small-ness of seed cavity, productiveness and shipping qualities. The firm deep flesh, which extends from the rind almost to centre of the melon, cannot be equalled for its rare spicy flavor and melting ten-dereness. Adding to this its extreme earliness and handsome appearance, we feel warranted in claiming it as the finest musk melon ever introduced. 1 bb.

# **RENNIE'S** SOUTHPORT WHITE GLOBE

261. One of the most beautiful Onions grown, being of symmetrical globe shape, with a smooth satin white skin, forming a perfect silver ball. It grows to a large size, averaging 7½ to 9 inches in circumference, and is solid and heavy; the flesh is purest white, close and fine grained, mild and of delicate flavor. It is a heavy cropper, yielding under good culture up to 900 bushels per acre. Our strain of this seed is grown from picked thin-necked bulbs, which ripen so uniformly and cure so thoroughly that the Onions keep nearly as well as the Red and Yellow varieties. For the family garden, as well as the size and Yellow able Onion. Lb. \$4.00, ½ lb. \$1.20, ez. 40c, pkt.

# **RENNIE'S SELECTED** LARGE RED WETHERSFIELD

28

265. The best variety in all sections. Produces heavy crops of enormous onions, all clean, solid, heavy and perfect. No "thick necks." Sure cropper. Long keeper. Unequalled shipper. Our Large Red Wethers-field is a grand red variety and a general favorite. With the exception of Rennie's Selected Yellow Globe Dan-vers, there is no variety as largely grown. Our stock is excellent, being saved from only carefully selected onions. The surface color is a rich dark red; the flesh sparkling white. It is an early variety to mature and a fine keeper. The flavor is good and mild, admirable for boiling. Lb. \$3.60, { lb. \$1.20, ez. 40c, pkt......10c

# **ONIONS**

Fr.-OGNON.

1 oz. to 100 ft. of drill; 5 lbs. to an acre.

THE MOST ESSENTIAL ITEM IN GROW-ING ONIONS FOR MARKET IS GOOD SEED-SEED THAT WILL COME UP AND SEED THAT WILL PRODUCE THE VARI-ETY YOU WANT-CHEAP SEED IS VERY POOR ECONOMY.

CULTURE.—Prepare the ground by mixing well-rotted manure with soil, and raking the surface fine and even. Sow in drills one foot apart as soon as the ground can be worked in the spring. Thin to two inches apart. Keep using the rake and boe frequently, taking care not to stir the soil too deeply or to collect it about the growing bulb. Never allow the weeds to get ahead of the young plants.

# **RENNIE'S RED GLOBE** PRIZE WINNER

264. A handsome Onion of immense size, aver-

# **RENNIE'S MARKET-MAKER GOLDEN GLOBE**

260. In color the skin is an attractive, light golden yellow, the flesh snow white, firm, mild and juicy. The very small necks of this superior strain enable the bulbs to ripen down evenly, thus insuring unsurpassed keeping qualities. It ripens much earlier than any other globe variety; matures with surprising uniformity, and nearly every bulb throughout the entire crop will be of the same uniformly moulded shape and market-able size. Its keeping qualities cannot be surpassed—the onions re-main sound the year round if properly kept. Lb. \$3.20, \$ lb. \$1.00, ez. 300, pkt. 30c. pkt ....

The specially selected seed we offer produces the finest shaped, best colored and largest cropping onion of the Wethersfield type and is grown by experts, from bulbs critically selected for size, solidity, color, shape and small necks to insure a perfect onion that will be beyond criticism.

# **RENNIE'S** XXX CONNECTICUT YELLOW GLOBE

Perfectly Round, Uniform Shape, Not Necky. Attractive Appearance. Sure Keeper. Heavy Cropper. Fast Seller.

- 262. This grand variety marks absolute perfec-tion in Yellow Globe Onions. It has been bred from a critically selected improved type non to renow Grove Grove Ontons. It has been bred from a critically selected improved type of Yellow Globe Danvers, and shows the best qualities of the parent variety, together with many added valuable characteristics which have resulted from several years' scientific breeding. It is so much superior in shape, size, solidity and yield, that all growers can profitably discard all other varieties in its faver. It is uniformly round in shape, brownish yellow in color, medium size, very solid and heavy, of excellent quality, and pro-duces an enormous weight per acre. It bulhs up very early, may be used almost all summer, and ripens up crisp and solid in the fall. The tops die off entirely, leaving per-fect shaped bulbs without neck, which pos-sess marvellous keeping qualities. Lb. \$3.60,  $\frac{1}{2}$  lb. \$1.20, oz. 40c, pkt...........10c
- 258. GIANT YELLOW PRIZETAKER .- Outside skin yellow straw
- 270. YELLOW GLOBE DANVERS.—A good onion both for home garden and for market, combining reliability in ripening with large yield. Skin pale yellow, flesh pure white, crisp and mild in flavor. Lb. \$3.20. 1 lb. \$1.00, oz. 30c, pkt.....
- 256. EARLY YELLOW FLAT DANVERS.—The best-known and most generally used flat, yellow onion. Is the most hardy of all varieties for California and yields the surest and largest crops. Color bright orange yellow; flesh white and firm. A good keeper, early and of good size. It is also a good variety for transplanting to get early onions. One of the standard varieties on our market, where it is often called "Silver-skin," although of a bright yellow color. Lb. \$3.20, ½ lb. \$1.00, ez. \$0c, nkt. nkt.

255. AUSTRALIAN BROWN.—Extra Early. An early and very hardy variety, which does especially well in California. Should be planted early, on low, wet grounds to get large bulbs. The skin is thick and the color is a rich brown. Is especially noted as a long keeper, as it keeps well into spring, and much longer than other varieties. Lb. \$2.90, ‡ lb. 90c. oz. 30c. pkt ...

2. AILSA CRAIG.—An immense light yellow onion; fine grained, crisp, mild flavored and early. They not infrequently measure 18 inches around, and weigh two pounds. Ailsa Craig is the largest onion grown. Oz. 60c, pkt.

#### PEAS **EXTRA EARLY** SORTS. drill; 2 to 3 busbels in drills per acre. LITTLE MARVEL—A New Dwarf Pea

# **RICHARD SEDDON**

303. RICHARD SEDDON.—The pods are deep green, crowded with from 7 to 9 large peas of very fine color and flavor. Grows from 16 to 20 inches in height. An extremely early type, maturing only a week later than the Alaska, when sown at the same time. A splendid all around early variety. On account of its immense productivity, evenness of maturity, compact well-filled pods and excellent color and quality, it is especially desirable for canning purposes. We found many plants in our fields last season bearing 15 to 20 pods, with a total of 100 to 150 large, fully formed, luscious peas to the plant, proving the immense productiveness of this variety.

# **RENNIE'S PROSPERITY**

THE EARLIEST WRINKLED OR MARROW PEA GROWN. SWEET, LUSCIOUS, TENDER.

305. ALASKA.—Extra Early. Height, 2½ feet. Very early and exceedingly uniform in maturing its crop. The vines are very productive, bearing four to seven pods which are filled with medi-um sized, bright bluish-green peas of good flavor. 5 lbs. \$1.25, lb. 30c, ½ lb. nkt.

#### RENNIE'S SEED ANNUAL [1916]

# **RENNIE'S XXX EARLIEST TABLE MARROW**

EARLIEST, SWEETEST AND LARGEST WRINKLED MARROW PEA GROWN.

308. This fine, new, extra early, large podded, wrinkled marrow pea is positively the best in its class. Unlike the usual extra earlies, it is full, wrinkled, and sweet as any late pea now in cultivation. The plant grows about three feet high, resembling Prosperity, though a little darker in color. Being of an exceptionally vigorous and hardy constitution, it may be sown with first earlies, coming in but three or four days later than the round, hard shell sorts. Yields a beavy and reliable crop of uniformly long, straight, square ended, dark green pods, well filled with large, rich flavored, wrinkled 

# MEDIUM EARLY PEAS **RENNIE'S XXX MELTING MARROW**

LAXTONIAN DWARF PEAS

# A DISTINCT NEW DWARF SORT

323. Rennle's New XXX Melting Marrow Pea, though not the earliest pea grown, closely fol-lows the extra early sorts, thus filling in the gap between these and the mid-summer varieties. The massive pods are produced in prodigal abundance and are closely packed with from six to eight immense wrinkled mar-row peas of a rich green color. eight intrifense winkted mar-row peas of a rich green color. The plants are of robust, half dwarf habit, growing about 15 inches high, with sturdy branch-ing stalks that are practically self-supporting, so that trellis or burds in a te second in the pass brush is not essential. The peas retain their rich green color when

315. RENNIE'S DWARF TELEPHONE.-Grows to the height of 18 inches; large handsome pods. The peas are of great flavor and excellence. It is the most promising new second-early or medium pea on the market. It is a wrinkled pea, of the marrow type. The pods frequently measure 5 inches in length, and are broad, straight, and remarkably well filled, often containing 9 to 10 peas. The color of the pod is pale green, and it is thick, plump, and well adapted to marketing. Peas extra large size. Bears close planting, and requires no sticks or supports. 5 lbs. \$1.75, lb. 40c, 2 lb. 15c, pkt. 10c

# SEED POTATOES

We have secured excellent stocks of Pure Seed Potatoes, entirely free from disease.

EARLY TRIUMPH.—The Triumph is from seven to ten days earlier than the Ohio. The potato is of good size, squared at the ends. Skin is red, flesh is very white and firm. It is productive, and commands a higher price among potato buyers than any other sort.

EARLIEST SIX WEEKS .- Of the Ohio type; in fact, very similar to it as now grown in the Northwest. Very prolific, and a first-class market sort.

IMPROVED EARLY OHIO.—The earliest heavy yielding potato in the market to-day. More seed of this variety is sold each year than any other sort. It is the standard early potato.

**IRISH COBBLER.**—Chunky, white-netted early potato of splendid quality. Some growers claim this to be the same as Eureka. Ripens one week later than Improved Ohio, but is of much better quality. A splendid yielder. especially suited to dry climates.

WHITE BEAUTY.—This excellent potato still retains the position it has occupied since intro-duced, on account of its attractive appearance and the excellence of its table qualities. The skin and flesh are pure white, the tubers are uniform in size, and keeps well.

SUTTON'S ABUNDANCE

merits its continued popu-larity and is one of the most reliable potatoes for field crops. Tubers flat-tish oval or pebble-shaped; dry and mealy when cook-ed, of the very finest flavor. Indispensable for the exhibition stage.

By mail, one pound of any variety 35c, five pounds for \$1.40.

By express or freight, at purchaser's expense, from TORONTO or MONT-REAL: Peck 90c, bus. \$2.75, bags free.

RENNIE'S PERFECTION PEA

See page 53 for Varieties and Prices of Potatoes we offer for shipment from WINNIPEG and VANCOUVER.

# RADISH Fr.-RADIS.

1 oz. for 100 feet of drill; 8 to 10 lbs. for an acre.

CULTURE.-Radishes thrive best in a light, rich, mellow soil, and to bring out their mild qualities must make a quick and tender growth. For early use sow as early in the spring as the ground can be worked, then at intervals until the middle of July.

WHITE OLIVE SHAPED

35

RENNIE'S WHITE TIPPED RADISH

- 350. COOPER'S SPARKLER.-This is 50. COOPER'S SPARKLER.—This is a globe-shaped radish of recent intro-duction. The top is very short, thus making it adaptable for forcing, al-though it is equally good for outside. The color is a rosy carmine, with a long white tip. Cooper's Sparkler will keep longer in good condition than any we have tried, and can be grown the yoor round. Successive severing schould
- 352. CRIMSON GIANT.—This Radish is an entirely new type, and differs radically from all varieties hitherto in cultivation, in so far as its roots attain more than double the size of those of more than double the size of those of other forcing varieties, without getting pithy or hollow. It is very early, notwithstanding its size. Color crim-son, flesh pure white, of the best quality. Fine for outdoors and forc-ing. Lb. \$1.20, ‡ lb. 40c, ez. 15c, pkt. 5c
- 358. EARLIEST SCARLET OLIVE.— A splendid radish for general crop. Lb. 90c, ½ 1b. 80c, oz. 10c, pkt.......5c
- 362. Chartier (Long) .- Color at the top is crimson, running into pink about the middle, and from thence downwards it is pure waxy white. Lb. 90c, 1 lb. 30c, ez. 10c, pkt .... . 5c
- 367. EARLY WHITE TURNIP. Lb. 90c.

### WINTER VARIETIES

- 370. LONG BLACK SPANISH.—Black skin. but pure white flesh; half long; one of the best for winter use. Lb. \$1.50, 1 lb. 50c, oz. 20c. 5c pkt.

- oz. 200, pkt.
   oz. 600, pkt.
   oz. 733. SCARLET CHINA. Bright rose-colored winter variety; excellent quality.

DEDUCT 10c. PER POUND IF ORDERED BY EXPRESS OR FREIGHT AT YOUR EXPENSE.

RENNIE'S XXX AUTUMN-WINTER GREEN HUBBARD SQUASH

# SQUASH Fr.-COURGE. 1 oz. for 50 hills.

CULTURE .- Sow when danger of frost is past, in bills from eight feet apart for the running varieties, to four feet for bush varieties. Leave two vigorous plants in each hill. Sprinkle with plaster or lime in early stages of growth.

## **RENNIE'S XXX AUTUMN-WINTER** GREEN HUBBARD SQUASH

#### The highest bred type in cultivation.

- 410. From coast to coast there is no more profitable or more popular variety of squash than the Hub-bard. It out-sells all others in our largest markets, it is acknowledged the standard of quality, it has the strongest and most vigorously growing vine, is best for pies and cooking, and yields most bountifully. Rennie's XXX repre-sents these qualities perfected by varied and long-continued cultivation, selection and breed-ing. The flesh is of a rich yellow or orange color, very solid, dry and a weet, and of the finest flavor.
- 400. BOSTON MARROW.-Good, tender, rich variety; for fall or winter. Lb. \$1.20, 1 lb. 40c, oz. 15c, pkt..... .50
- 401. ORANGE MARROW (Prolific). Rich orange color; medium size; sweet flavor, thick, high-colored orange flesh; a fine fall squash. Lb. \$1.20, 1 lb. 40c. oz. 15c, pkt...5c
- 402. RED HUBBARD (Golden Hubbard).-The
- blackish green, hard as wood, with warty knots all over it; satisfies even the inexperienced observer that it is the best. Lb. \$1.50, ‡ lb. 50c, oz. 20c, pkt..... .50
- 75c, oz. 25c, pkt... 100

# SPINACH Fr.-EPINARD.

#### 1 oz. for 100 feet of drill; 10 to 12 lbs. per acre.

CULTURE.—For summer use, sow early in spring as possible, in good rich soil, in drills one foot apart; for spring use, sow late in the fall, and protect with a covering of straw

straw.
88. LONG SEASON.—This variety of Spinach is especially adapted for the summer season, when other sorts quickly run to seed. The leaves are a rich dark green color, very thick, crumpled and of splendid quality. Lb. 70c, <sup>1</sup>/<sub>2</sub> Hb. 25c, oz. 15c, pkt. 5c
89. IMPROVED VICTORIA.—A grand Spinach; broad, dark green leaves. A great cropper. Lb. 60c, <sup>1</sup>/<sub>2</sub> Hb. 25c, oz. 10c, pkt.
90. Bloomsdale or Savoy Leaved.—Wrinkled like Savoy Cabbage; very tender. Lb. 60c, <sup>1</sup>/<sub>4</sub> Ib. 25c, oz. 10c, pkt.
91. LONG STANDING (All Seasons).—Leaves crumpled. Lb. 60c, <sup>1</sup>/<sub>4</sub> Ib. 25c, oz. 10c, pkt.

JOHNSTON ST. MARTIN RHUBARB

# **RENNIE'S MAMMOTH GREEN SQUASH**

411. Holds the record for the Heaviest Weight Squash ever grown-403 lbs. For exhibition purposes it stands without a rival. Skin dark green, flesh golden yellow. Seeds from speci-mens weighing 300 bs. Pkt: containing ten seeds and Secret, "How to Grow Big Squash"...25c

# \$10.00 Cash

will be paid to customers growing Mammeth Squash to weigh not less than 300 lbs. each, and \$5.00 CASH for specimens not less than 200 lbs. each, from seed procured from us this season. The prize specimens will be ordered sent to our store at our sensers. store at our expense.

# **VEGETABLE MARROW**

412. LONG WHITE BUSH MARROW .-- Long-

# **RHUBARB SEED**

[1916]

#### Fr.--RHUBARBE.

CULTURE.—Sow in drills in May, 12 inches apart, in rich soil. Transplant when sufficiently strong next season, in rows two feet apart, into deeply trenched heavy soil. Cover during winter with straw manure.

### RHUBARB ROOTS

382. JOHNSTON'S ST. MARTIN.-By express 

383. NEW RASPBERRY.—We can confidently state that this Rhubarb is the most attractive of all the varieties known. The fine stalks of medium thickness are of a beautiful raspberry carmine tint, which is most pleasing to the eye, and commands for it a ready sale in the market. It is equally valuable for forcing as for garden culture. Roots, each 35c, 2 for. 60c

# SALSIFY Fr. SALSIFIS. (Vegetable Oyster)

The demand for Salsify is increasing from year to year, as its delicious qualities are becoming known. The directions for growing and keeping Known. The diffections for growing and keeping are the same as for parsnips. One ounce will sow 50 feet of drill; 10 lbs. to the acre.
387. MAMMOTH SANDWICH ISLAND.— Grows to a large size. Superior quality and excellent flavor. Lb \$2.50, ½ lb. \$0c, oz. \$0c

IMPROVED VICTORIA SPINACH

PRICES IN THIS CATALOGUE INCLUDE DELIVERY, EXCEPT WHERE OTHERWISE NOTED.

# TOMATOES

[1916]

CULTURE.—Sow in a hot-bed in March; when two inches high transplant into pots, boxes or another bed, and attend to them carefully until danger of frost is past, then transplant them permanently into a warm situation, fully exposed to the sun. Support with brush or trellis to keep the fruit off the ground. Pinch the ends of the vines off to hasten ripening, after the fruit begins to set.

# EXTRA EARLY VARIETIES **RENNIE'S XXX EARLIEST ROUND** SCARLET SKIN TOMATO

445. This splendid sort will yield the first pickings of ripe tomatoes, and that at a time when the very highest prices can be got. As its habit is open, the numerous clusters of fine large fruits are fully exposed to the warm sunnumerous clusters of the rate in the result of the same the second seco 35c, pkt....

RENNIE'S I.X.L. TOMATO EXTREMELY EARLY, WONDERFULLY PROLIFIC 425. A week earlier than the Earliana. More productive than the Chalk's Jewel. As large as the Plentiful. As solid as the New Globe. In fact, the world's leading extremely early Tomato. In our field tests, I.X.L. Tomato proved to be a week to ten days earlier than the Spark's Earliana, with an abundance of fruit larger and more prolific than Chalk's Jewel; in fact, any number of specimens could be found as large as the Plentiful Tomato. The I.X.L. Tomato is without a single erception the leading extremely early Tomato. Do not experi-ment with it, but plant your entire early crop in I.X.L. Tomato. Your ercog will net you big returns. crop will net you big returns. 1. A heautiful, brilliant red color. 2. Vines are a perfect mass of large, smooth fruit, a single plant yielding

hushel.

 Fruit is extremely early, enormously abundant; ripeas all at once.
 Vines compact and can be placed two feet apart in three-foot rows.
 The largest growers tell us that we cannot say too much in favor of the I.X.L. Tomato. 

# **RENNIE'S NINETY DAY**

- 426. Our NINETY DAY is one of the earliest, smoothest, hardest and best early Tomatoes grown. In this New Variety we have very smooth deep fruits which are ready for market five to seven days earlier than Spark's Earliana. The Tomatoes are exceptionally smooth, regular in form, and are quite deep through from stem to blossom end. The fruits mature quickly, and generally can be all gathered in about three weeks from the time the first fruit ripens. This northern-grown strain of Tomato is undoubtedly the very best earliest scarlet-fruited Tomato. Oz. 70c, § oz. 40c, pkt.

Book on Tomato Culture. By W. W. Tracy. Contains the latest and most complete information on the subject. Price, 50c (postpald, 55c).

**RENNIE'S I.X.L. EXTRA EARLY TOMATO** 

### BLUE STEM EARLY, OR KING EDWARDA ,

- 432. EARLIANA.—A favorite with market gardeners, who pronounce it one of the earliest tomates in cultivation. From less than 4,000 hills the originator realized from his first pickings \$725.00, clear of freight and commission. It is of handsome shape and bright red color, and for solidity and fine quality is quite equal to best medium and late sorta. (Spark's True Strain.) \$10.\$1.00, ez. 30c, pkt.
- - 434. CHALK'S EARLY JEWEL.—The large handsome fruits are very solid and deep, through being almost round or ball-shaped. Color brightest scarlet, ripening right up to the stem without any cracks. The flesh is very solid, with comparatively few seeds, and of fine sweet flavor; skin thin, but sufficiently strong to make it a good shipper. Originator's strain of seed, ½ lb. \$1.00, oz. 30c, ½ oz. 20c. pkt....
  - 135. JUNE PINK.—Growth similar to Earliana. Fruit hangs in clusters of 6 to 10 fruits. Shows no tendency to blight. The uni-form smooth, attractively-shaped, bright Pink Tomatoes do not crack, and are without any green core. Ripens as early as Earliana. 1 lb. \$1.25, ez. 35c, 1 ez. 20c, pkt.
  - 436. BURPEE'S DWARF-GIANT .- One of the largest fruited of all

RENNIE'S IMPROVED BEEFSTEAK TOMATO

447. HOLME'S SUPREME (FORCING) .- This is undoubtedly the largest of all the tomatoes usually grown under glass. It is a variety which English growers estimate very highly, on account of its fine shape, great size, bright scarlet color, and especially for its fine-flavored firm fiesh. The fruit ripens very evenly and is a good keeper, which renders it valuable for shipping to a distant market. Oz. \$1.00, ½ oz. 60c, 16t.

NEW GLOBE TOMATO

Oz. 50c, pkt.... 

# **TOMATO**—Continued **RENNIE'S IMPROVED** BEEFSTEAK

[1916]

437. (Enormous in Size. Delicious in Taste).—It excels in magnificent size, often attaining a circumference of eighteen inches, frequently weighing two, three and four pounds each, perfect in form, free from wrinkles and fissures, per-fectly smooth and as solid and meaty as beefsteak; it ripens thoroughly from centre to skin.

The plants of Rennic's Improved Beefsteak Tornato are luxur-iant, healthy in growth, independent of droughts, free from blight, and are prodigious, early and continuous bearers. First ripe fruits are often picked in ten weeks from seed sowing, while late fruits may be gathered until frost.  $\frac{1}{2}$  10. \$1.75, ez. 50c,  $\frac{1}{2}$  oz. 80c, pkt.

## MAIN CROP VARIETIES **RENNIE'S XXX PINK SKIN** TOMATO

- 'IOMATO'
  446. The best main crop variety. A continuous fruiter. Excellent shipper. Perfect keeper. Tested against every other known pink skin, main crop variety, this excellent strain has established the highest records for luxurious growth, productiveness, appearance, size of fruits, framess of flesh ad quality of meat. Upwards of 160 marketable tomatoes have heen taken from a single plant. The individual fruits, though marmmoth is size, are quite smooth, thlek, plank skin of attractive appearance. The firm flesh is solid through with very few seeds, of fine rich flavor, entirely free from acidity. 1 b. \$2.00, ez. 60c, ½ oz. \$5c, pkt.
  438. NEW GLOBE.—Among the first to ripen, although of large size; very smooth, firm fleshed, few seeds, ripens evenly; color a beautiful glossy rose, tinged purple. Flavor delicate and agreeable. The fruit is borne on short-jointed branching plants literally loaded with fruit. A good general cropper, and one of the very best for greenhouse growing. 1 b. \$1.50, oz. 40c, 1 e. 25c, pkt.
  439. PLENTIFUL.—Fruits of large size, smooth and uniform; pink shade. 1 b. \$1.00, oz. 30c, pkt.
  400. SUCCESS (Scarlet Fruited Tomato, of Finest Quality).—Color brightest scarlet; smooth and free of cracks. An excellent market sort. 2 b. \$1.00, oz. 30c, pkt.
  411. PONDEROSA.—A monster Tomato. 1 b. \$1.50, oz. 40c, pkt.

- .5c pkt.

442. GOLDEN QUEEN (Sunrise) .- Bright yellow; rich flavor. 1 lb. \$1.00, oz. 30c, pkt..... 5c ...........

# POT AND MEDICINAL HERBS

Every garden should contain an assortment of herbs for culinary and medicinal purposes, and care should be taken to harvest them properly. This should be done on a dry day, just before they come into full bloom, then dry quickly and pack closely, entirely excluded from the air. CULTURE.—Sow in spring in shallow drills one loot apart, and when well up thin out or transplant to a proper distance.

## RENNIE'S SEED ANNUAL [1916]

RENNIE'S LEVIATHAN SUGAR BEETS, grown on Rennie's Gold Medal Farm in Scarboro, yielded 1008 bushels per acre. Field tests of various Root Crops are made avoually by our Mr. James A. Repnie on this farm.

# **RENNIE'S JUMBO**

540. RENNIE'S JUMBO is one of the finest types of Giant Feeding Sugar Beet that have yet been introduced. The immense roots are white fleshed, shading to a green at the upper part; growing but a few inches in the ground they are easily harvested, and the close formation of the leaves at the crown renders them very easy to top. Lb. 35c, ½ lb. 20c, ½ lb. 12c 530. RENNIE'S GIANT SUGAR MANGEL.—This very popular variety is valuable alike either as a milk producer or as a flesh former.

## **RENNIE'S PRIZE-WINNING STRAINS**

# SUGAR BEETS FOR FEEDING

Fr.-BETTERAVE FOURRAGERE SUCRIERE. Sow 4 to 6 lbs. per acre.

# **RENNIE'S LEVIATHAN**

- 543. RENNIE'S GIANT WHITE FEEDING.— This is a distinct type of Sugar Beet, producing not only an immense crop, but roots of giant size and richest feeding quality. Gives a yield of over 1,000 bushels of clean roots per acre. The roots are as long as our Jumbo, heavy, even shaped, holding their size to the ground, when they gradually taper to a point; stand upright, and three-fourths their length out of the ground. Lb. 85c, ½ lb. 20c, ½ lb.\_\_\_\_\_\_
- 544. RENNIE'S IMPROVED TANKARD CREAM.—Distinct from any other variety in cultivation; being of a uniform Tankard type and growing but a few inches in ground, is harvested in the easiest possible manner. Color white, with a hronze-green shade at the top. Fine keeper. Lb. 40c, ½ lb. 25c, ½ lb......15c
- 546. Rennle's Danish Sugar Beet.—For fattening purposes and for feeding to milch cows this variety is one of the best in cultivation. Color, deep pink above ground, below that it is white. Lb. 30c, ½ lb. 18c, ½ lb. 10c

A CROP OF OUR DERBY SWEDE TURNIPS GROWN ON RENNIE'S GOLD MEDAL FARM IN SCARBORO

# **RENNIE'S "DERBY" BRONZE GREEN TOP**

592. Discriminating farmers will readily see from our illustration, taken from a photograph, that this excellent Derby Swede is far ahead of all others for uniformity of size and shape. In addition to these good qualities, it is also undoubtedly the hardiest, heaviest, and by far the most productive of all the bronze green-top Swedes now in cultivation. It will remain sound almost indefinitely, and can be shipped any distance without injury. The flesh is tender, nutritious, juicy and sweet, and will be preferred to all others for table use. A great Swede for cattle feeding. Lb. 55c, 1 b. 30c, 1 b.......18c

# RENNIE'S MAGNUM BONUM SWEDE TURNIP

596. CARTER'S INVICTA BRONZE TOP.— Introduced by one of the largest English seed firms, and recommended by the Ontario Agricultural College. It is a very heavy cropping, hardy swede. The roots grow uniform in shape, and are very solid and excellent keepers. It is a splendid swede for shipping and for table use; the sweet, tender and fine-grained yellow flesh is unsurpassed. Lb. 50c,  $\frac{1}{2}$  lb. 30c,  $\frac{1}{2}$  lb......18c

598. SELECTED HASZARD'S IMPROVED.— It is especially valuable on account of the very heavy yield it produces, and also for its excellent long-keeping qualities. The handsome roots are uniform in shape, white fleshed, and of very rich feeding qualities. New seed tested for purity and germination. Lb. 55c, ½ lb. 30c, 4 lb. 18c

# TURNIPS FOR EARLY WINTER FEEDING

#### Fr.-NAVET DES CHAMP.

#### Sow 2 to 4 lbs. per acre in drllls.

The following varieties are not so well adapted for late winter feeding as the Swede, but for fall and early winter feeding they are grown with profit, producing a great bulk per acre, and may be sown much later in season than Swede varieties.

- 616. Red Globe (Lincoinshire).-Very large, and good for poor soil. Lb. 45c, ½ lb. 25c, ½ lb.. 15c

RENNIE'S DERBY SWEDE produces 50% more than most Swedes. Why not plant it? The Seed costs but a trifle more.

45

# RENNIE'S MAMMOTH OR IMPROVED GREYSTONE

### SUGAR CANE OR SORGHUM DWARF ESSEX SOWING RAPE

- TRUE DWARF ESSEX.—Best broad-leaved variety. It has been estimated that an acre of Dwarf Essex Rape, when not preceded by any other crop the same season, will leed from 35 to 40 lambs for two months, and that the gain in flesh per month will be from 8 to 12½ lbs. on each lamb. Young cattle thrive on it as well as swine.
- Rape should be sown broadcast at the rate of 10 lbs. per acre, or in drills two feet apart 5 lbs. per acre, from June until the middle of September, and forms an excellent green folder for sheep in autumn or early winter It is also used extensively for ploughing under to enrich the land.
- Rape is unequalled as a pasture for sheep in the autumn; as a fattening food in the field it is without a rival in point of cheapness or effectiveness. Rape will keep a long time in early winter in heaps like shocks of hay. When thus put up it may be drawn and fed as desired. By mail, Ib...30

### (FOR LARGER QUANTITIES SEE PAGE 53.)

- TARES OR VETCHES.—For producing an abundance of green fodder early in the season. Tares are in great demand. Sow 1 bushel to the acre, with a bushel of oats to hold them up. By mail, lb. 25c. Bushel prices on page 53.
- THOUSAND-HEADED KALE.—Unsurpassed for sheep. In Britain it is preferred to Sowing Rape, as it yields a heavier crop of Green Food. Has given splendid results in most sections where grown the past season. Its chief characteristics consist in its producing tremendous masses of sprouts or heads, upon which the long, large leaves of foliage of great richness and food value are grown. Sow in the early spring. Plant with a drill, dropping the seeds about six inches apart in the row, and the rows 2 ft. apart. One pound will be sufficient for an acre, but if you wish to sow it broadcast you ought to sow 2} lbs. per acre. By mail, ½ lb. 15c, ½ lb. 25c, lb.

JAPANESE PANICLE MILLET (See Novelties, page 8) .- By mail, lb. ... 80c

- EVERGREEN BROOM CORN.—This variety of Broom Corn is more largely grown than any other. The brush is noted for its fine quality, good length and handsome appearance; cut before the seed is ripe; it is a beautiful pea-green color. It ripens early and yields heavy crops. By mail, lb. .20c
- SUGAR CANE OR SORGHUM (Early Amber).—The value of Sugar Cane for fodder and ensilage is rapidly becoming known. Excellent green feed lor cattle. Sow in May or June. Sow 40 lbs. per acre. By mail, lb.... 20c
- LATHYRUS SYLVESTRIS.—Two cuttings in one season. Vast amount of rich hay secured from small area. Affords excellent pasturage. Mature plants root 20 feet deep, and stand severest droughts and extreme cold. Lasts 50 years without re-seeding. Sow 20 lbs. per acre. By mail, lb. \$1.35. \$ lb. 75c, \$ lb. 45c, ez. 15c, pkt.

SUNFLOWER (RUS-SIAN GIANT).-Eggproducing food. Leaves are splendid fodder. Sow in drills, 10 lbs. per acre. By mail, lb.25c

TRUE DWARF ESSEX RAPE

PRICES IN THIS CATALOGUE INCLUDE DELIVERY, EXCEPT\_WHERE OTHERWISE NOTED.

# **RENNIE'S SELECTED SEED CORN**

Corn is king. If it is to be your king crop, be sure to start right with dependable seed. BIGGER YIELDS FROM PURE BRED SEED CORN

We were long ago convinced that **pure bred seed corn** of the standard varieties would produce more than either nondescript off-type corn or **pure bred corn** that had been allowed to run out or become mixed with inferior types. **Pure bred corn** will surely mix unless it is kept isolated.

# EXTRA EARLY FLINT SEED CORN FOR NORTHERN PLANTING

LONGFELLOW FLINT

In Eastern Canada and in the extreme northern part of this country Flint Corn is preferred to Dent varieties, as it is earlier, hardier, and will grow under adverse circumstances, mature quickly, and under favorable conditions yield immensely. All are perfectly acclimated to our Northern conditions, which mean cool nights and short summers.

- ANGEL OF MIDNIGHT.—Begins to ripen early. It is an early yellow flint corn. Longest ears, 14 inches; 8 rows, over 60 kernels in a row; kernels large, broad, yellow, flat.
- COMPTON'S EARLY.—An extra early variety, matures in 100 days, and produces large ears which average 10 inches long and are 12 to 14 rowed. The ears are well filled to the tips with small, rich golden-yellow kernels. The stalks grow 10 feet high, and often produce 2 and 3 ears each. This is a very productive variety, and has yielded 75 bushels per acre and more. A splendid corn for North.

EXTRA EARLY AUSTRALIAN (8-Rowed).—A superior variety, having given unequalled satisfaction to those who have tried it. Remarkably early, ripening fully two weeks ahead of Compton's. If is unusually productive, the ears being very long, the grain large, and the cob small. Hardiest variety known; will thrive at an altitude of 6,000 feet, where the climate is always too cold for ordinary corn. A great drought resister; will produce crops where other sorts fail.

IMPROVED KING PHILIP (Extra Early Red Flint).—An extra early variety and one of the most reliable. The stalks grow 7 feet high, are very leafy, and therefore very valuable for fodder. The ears are 8-rowed, 10 to 12 inches long; the kernels are of shiny red color.

COMPTON'S EARLY

**LONGFELLOW FLINT.**—The ears are from 10 to 15 inches long,  $1\frac{1}{2}$  to  $1\frac{3}{4}$  inches in diameter. The cob is small, kernels large and broad, This corn is adapted to the North, and is said to have produced 200 bushels of ears to the acre. Stalks  $7\frac{1}{2}$  feet high, ears 8-rowed, of glossy yellow color, and set about 3 feet from the ground.

NORTH DAKOTA (8-Rowed).—A grand white Flint variety. Matures early, yields enormously, produces a large number of good ears and a smaller number of poor ears than any other variety.

RENNIE'S NORTHERN PROLIFIC (8-Rowed).—Ripens in 100 days, and yields surprisingly large quantities of corn on small cobs. The cob is the smallest of all Yellow Flint Corns. The corn is a beautiful rich golden color. The best Hundred-day Corn up to date. Sow 20 lbs. per acre.

SANFORD'S WHITE.—Very large ears, 12 to 15 inches long, of symmetrical shape and flinty white color. The stalks are tall, leafy and generally with 2 or 3 ears. Largely grown by dairy farmers in the east. A medium late variety. Extremely popular in Eastern Canada.

A pound of any sort 25c by mail. See page 53 for prices in bushel lots.

# **CORN** versus **ROOTS**

The tendency of late years has been a larger area of Corn for Ensilage and less Field Roots. The problem of farm labor has had much to do with the increase of the former and the reduction of the latter but with the return of "Men to the Land" labor will cease to be a problem and crops of Field Roots will be increased.

Progressive farmers always provide full cellars of Sugar Beets, Mangels and Swede Turalps—and we believe it is in the best interest of every farmer to grow pleaty of Field Beets in addition to a liberal acreage of Corn for his live stock.

RENNIE'S NORTHERN PROLIFIC CORN

# **RENNIE'S SELECTED ENSILAGE** AND FODDER CORN

# "THE SILO AND THE SHOCK"

Thousands of silos are being added every year to the immense number already built and in use, and the dairyman says he does not see how he ever got along without them. Canadian farmers are calling for Rennie's Pure Seed Corn, knowing that it will make a rank, vigorous growth, with a creditable showing of grain, and, above all, will stand up in the face of winds that would blow down any Southern corn. We are growing and breeding the following varieties:

# NORTHWESTERN OR SMOKY DENT

Originated in North Dakota, it is the earliest and hardiest Dent Corn grown, and can be depended upon to mature every season in Northern Ontario, Manitoba, Saskatchewan and Alberta, even when all other corns fail. The stalks grow about 64 feet high, and the ears are borne over 3 feet above the ground, allowing the use of a corn harvester. The ears are of good size, from 7 to 10 inches long, have a thin cob, and 10 to 14 rows of very deep, large kernels of red color with a yellow cap, but there is some variation in the color, as it is in the type. Northwestern Dent is a very productive variety; we have often harvested 75 to 85 bushels per acre. It matures in 75 to 85 days, according to the season. We have a very fine lot of this variety on hand which was grown for us under our own super-vision. There is no earlier and better strain in the country than ours. Lb. 25c, by mail. For bushel prices see page 53.

# **RENNIE'S SELECT WISCONSIN No. 7**

GROWN IN CANADA. The ability of Wisconsin No. 7 White Dent Corn to mature early and produce large crops is due entirely to its breeding and selection—work which we have conducted for many years. It is the largest eared, extra early corn grown in Canada, the ears averaging at husking time nearly, if not quite, one pound. It has given the greatest average yield of any early corn we have ever grown. In field tests with other leading varieties planted under precisely the same conditions, and given the same treatment, it has averaged a very much greater crop than any of the other varieties. The constitution of the corn is such as to resist extremes of weather to the last degree, and we offer it with the conviction that it will prove a sensation with all those who want an extra early white corn.

DESCRIPTION.—Very large white corn of unusual size and length. On good land ears will run from 11 to 13 inches, with occasional specimens 14 to 15 inches long. Grains § inch, very wide and thick. Rows 14 to 16, straight and close together. True Dent type. Cobs pure white, of medium size, cylindrical; hutts slightly swelled. Matures in 100 days. Lb. 25c, by mail. For bushel prices, see page 53.

# **RENNIE'S GOLDEN GLOW CORN**

GROWN IN CANADA-EXTRA EARLY YELLOW DENT.

The commanding points of excellence which place Golden Glow Corn at the head of all yellow Dent varieties for Northern planting are its earliness, enormous

The commanding points of excellence which place Golden Glow Colla Callow Coll at the need of all yellow Dent varieties for Northern planting are in early Selfing and the second of all yellow Dent. We recommend this to the Canadian farmer as the best early corn, both for feeding and for ensilage. For late replanting this corn is invaluable. Place your order for Golden Glow early. Our supply is limited this year. If every farmer would include a bushel of this splendid corn with his regular order, he would have some corn for early feed or for planting wet spots. This corn is a good seller and a great favorite, being the first corn to grade each year at the clower to the splendid corn with his regular order, he would have some corn for early feed or for planting wet spots. This corn is a good seller and a great favorite, being the first corn to grade each year at the clower to the splendid corn with the splend elevators.

This strain of Golden Glow is earlier in maturing than what we have grown heretofore, and is the earliest maturing variety we handle. Lb. 25c, by mail. For bushel prices, see page 53.

# **RENNIE'S IMPROVED** LEAMING CORN

The Learning Corn was first originated in Ohio in 1826, by Mr. J. S. Learning. This corn was brought to Illinois over fifty years ago, and since then many strains and varieties have been started from this oldest of known varieties of Dent Corn.

Rennie's Improved Learning is a corn that is known as The Feeder's Friend. For cattle, hogs and sheep there is none better. Rich in both protein and oil, it becomes the ideal from a feed-er's standpoint. The cob is more readily crushed and masticated by cattle than most varieties.

For dairy districts, for ensilage purposes, **Rennle's Improved Learning** is unsurpassed. Possessed of an abundance of foliage, with broad fine quality of leaves and heavy stalk, 20 to 25 tons of ensilage per acre is an average yield.

Large ears on heavy stalks produce many bush-els to the acre, and while this corn is recognized by all as the great silage and feeding corn, it is also a big yielder under our modern methods of selection and breeding. It is of a rich yellow color, and requires 110 to 120 days to fully mature. Lb. 25c, by mall. For bushel prices, see page 53.

RENNIE'S IMPROVED LEAMING CORN

48

PRICES IN THIS CATALOGUE INCLUDE DELIVERY, EXCEPT WHERE OTHERWISE NOTED.

## **CORN**—Continued

[1916]

Any varlety except Stowell's Evergreen: Lb. 25c, by mail. See page 58 for bushel prices. BAILEY YELLOW DENT (Ontario Grown). -This variety is an extra early, beautiful Yellow Dent Corn. For an early-feeding Corn, Bailey Yellow Dent has no equal. We thoroughly recommend this Corn, as it is the one thing the average farmer requires —an early-maturing Corn—and it will make good ears when closely planted in drills.

good ears when closely planted in drins. PRIDE OF THE NORTH (Grown in Canada).—A dependable Early Yellow Dent Corn. In some sections of Canada it equals other varieties in yield and quality, the stalks being short-jointed and leafy. Two or more well-developed ears on a single stalk; kernels very deep and closely set on the ear; stalks about 8 feet. WHITE CAP YELLOW DENT (Grown in

Canada) .-- We have grown this Corn for many years, and it has always proved a great yielder and very early.

RENNIE'S SELECT RED COB CORN

Our stock of this Corn is invariably exhausted very early in the season, thus proving its growing popularity. We increased quantity this year to meet all demands. We have provided an

- MINE TELLOW DENT.—With the expert corn farmer, Gold Mine is known as medium early and as a great producer and sure cropper. Ears are medium and the grain bright golden yellow, very deep, and the cob is small. Gold Mine will grow in nearly every part of Canada, pro-ducing a heavy yield, and is especially recommended for Ontario, Quebec and British Columbia.
- RENNIE'S SELECT RED COB .- The very best selection of the popular EXAMPLE'S SELECT RED COB.—The very best selection of the popular St. Charles Red Cob which is grown so extensively throughout Eastern Canada. The grain is pure white on a red cob of large size. Stalks grow very leafy and heavy, and will produce enormous yields, proving a mortgage lifter for silage or fodder. We have a very fast growing demand for it, and have grown a much larger quantity than usual for this season's trade.
- STOWELL'S EVERGREEN SWEET.—One of the most valuable vari-eties grown, splendid for fodder, excellent for canning or table purposes. Cattle seem to prefer it to any other dry or silage feed, and will devour it, leaf and stalk. The sweet, juicy stalks give it a flavor that is relished by animals, and dairy farmers claim it will add to the cream production and increase the flow of milk. Lb. 35c, by mail.

# IMPROVED WHITE LESS BARI

ITS VALUABLE PROPERTIES: Hulless, beardless, very early, weighs over 60 lbs. to the measured bushel, yields well on poor land and

enormously on good land. Its nutritive

Its huttive value is very great. It is fed to work-horses at the rate of 2 quarts where 4 quarts of oats would be required. The best way is to mix it with oats and grind the two together for horse feed. It is also very valuable for feeding poultry, hogs and all kinds of stock. As fattening feed for hogs it has no equal.

It is often grown for hay, coming very early and providing rich feed. It should be cut just before it becomes ripe and while the straw is green. In this condition it is relished by all kinds of stock

For grain, sow 1<sup>1</sup>/<sub>2</sub> bushels to the acre; for hay, 2 bushels. Weighs over 60 lbs. to the bushel, but sold on same basis as other barleys, 48 lbs. per bushel. Lb. 25c, by mail. Bushel prices, page 53.

- JAPANESE BUCKWHEAT.—From <sup>1</sup>/<sub>2</sub> bushel of seed sown a crop of 40 bushels has been harvested. Color of grain, rich dark brown. Flour from Japanese Buckwheat is superior to others. Excellent for bees.\_Sow 3 pecks per acre. Lb. 35c, by mail. Busbel prices, page 53.
- SEED FLAX.—A Money Making Crop for Canadian Farmers. Growing Flax is becoming popular and extremely profitable. Farmers who have sown a few acres are more than delighted with the handsome returns. We offer the heaviest yielding Flax. Sow a bushel (56 lbs.) per acre. Lb. 25c, by mail. Bushel prices, page 53.

PULLING FLAX (WESTERN ONTARIO)

GIANT SOUTHERN WHITE FODDER.—This is among the best Fodder Corns, either to feed green out of the field, or to put up for the silo, or to cure and stack away, cropping as high as 35 tons to the acre. It has short joints, an abundance of leaves and blades, grows as tall as the tallest, thus making it of extraordinary productiveness. GOLD MINE YELLOW DENT .- With the expert corn farmer, Gold

HEADS OF IMPROVED WHITE HULLESS BARLEY

[1916]

#### A 1915 BUMPER CROP OF MARQUIS WHEAT WHIND WAVE THE "ALL-MEAT" OATS HULLS. WEIGHS MORE TO THE MEASURED BUSHEL THAN ANY OTHER SORT YIELDS WELL ON POOR LAND AND IMMENSE CROPS ON GOOD SOIL. THIN

THE TOTALS: WELL ON POOR LAND A Inmease yields were reported in acarly every instance where White Wave was seewn last seases. It is no easy task to introduce a new Oat nowadays. There has been one new sort after another sent out and very few varieties have stood the test like the old American Banner. We well remember introducing this popular Oat to the Canadian public some years ago. Now, we are not going to say that this new imported Oat will last like the Banner, but we do say it will please. We like the big and meaty kernel (because this is where we get the feed). Again, the thin hulls appeal to us. We hesistate to recommend an oat with thick hulls. The straw of White Wave also appeals to us. Strong and wiry, yet not too coarse to be objectionable. Stands up well. Another good point in this new Oat's favor is its earliness (not the earliest in existence), but it ripens its crop evenly and a little ahead of most kinds. As a yielder it fills the bill, cropping splendidly on moderate land and easily over a hundred bushels to the acte on god soil. If you are going to try a new oat this year get a few bushels of White Wave. Our seed is very fine, and you will travel the country a long time to see its equal. Lb. 25c, by malf. Peck and bushel prices, see page 53. BUMPER KINCLOATS

## BUMPER KING OATS

**BUMPPER KING OATS** This valuable new White Oat from Northern Ireland has been the admiration of all who saw it growing. As a result our growers were besieged on all sides for seed this coming spring. It is a well-known fact that it pays to renew oats every year, especially if eeed can be had from abroad, as it will make a difference of twenty bushels or more per acre in the yield. Bumper King is of medium length of straw, stands up well, has a large, full, compact head filled with large plump grain, enclosed in a soft thin hull, and shows but little beard. We look upon this variety as one of great promise. This oat weighs about 40 lbs. to the bushel, and is quite distinct from any variety hitherto introduced. Under the most stremuous tests has established a reputation for the earliest, heaviest, and most prolific oats in cultivation. Lb. 25c, hy msil. Bushe el prices, see page 53.

and most prolific cats in cultivation. Lb. 25c, hy mail. Bush-el prices, see page 53. BRISTOL BLACK.—Handsome, plump, jet-black Oats. Selected an account of its enarmous size from a field of Black fartarian, and promises a revival of old-time yields, when 70 and 75 bushels, and even as high as 85 bushels, to the acre were not uncommon It grows stiff and strong straw. The side heads are long and heavy lsden, sometimes nearly a foot in length. Lb. 25c, by mail. For peck and bushel prices, see ange 53.

foot in length. Lb. 25c, by mail. For peck and bushel prices, see page 53. "FIFTY-POUND" BLACK OATS.—Just what its same im-plies. Oats weighing 50 lbs. to the measured bushel are not very common, but when we state that this new variety rarely produces lighter oats, farmers generally will be anzious to try it. "Fifty-Pound" is a first-class cropper, with strong, stiff straw and heavy side heads. Lb. 25c, by mell. For peek and bushel prices, see page 53.

# MARQUIS WHEAT

- THE WHEAT OF THE WEST. Marguls is a cross between Red Fife and Hard Red Calcutta Wheat. From reports received where it has been thoroughly tested the past season it has given great returns. Ripens earlier than Red Fife, and as a milling wheat it is identical with it, producing a flour equal if not superior to Red Fife. The heads are bald, kernels dark red, hard and good size. The chaff is yellow and the straw medium in height and very stiff. A yield of 53 bushels to the acre is recorded at Indian Head Experimental Farm. Lh Ste. bu mall. Fer neck and bushe picces eee page 58. Farm. Lb. 25c, by mall. For peck and bushel prices see page 53.
- RED FIFE WHEAT.—Early, vigorous, highly productive. We have an extra fine sample of this well-known variety; carefully selected and of specially high grade. Lb. 25c, by mall. Busbel prices. page 53.

A HEAVY CROP OF GOLDEN VINE PEAS. See page 53.

SEE PAGE 53 FOR PRICES OF CLOVER, TIMOTHY AND SEED GRAIN.

**RENNIE'S SEED ANNUAL** [1916]

## **RENNIE'S EARLY YIELDER WHITE OATS**

THE GREATEST OF ALL YIELDERS. This superb variety is undoubtedly the heaviest cropping White Oat ever offered. It is practically immune from rust, is the earliest and most bountiful cropper of the heav-growing sorts. One of the largest and most experienced Oat growers in Ontario says: "Its wonderful productiveness is far beyond what the most enthusiastic farmers ever expected to realize." One of the fields after threshing and cleaning of seed the yield was 108 bushels per acre of large, plump, handsome, meaty, white grain, weighing 44 pounds to the measured bushel. The yield of other varieties on neighboring farms was from 35 to 50 bushels per acre, or less than one-half that of Rennie's Early Yielder. Being a very deep rooter, it resists drought more easily than others. The grains are absolutely white, thick and plump, and have a very thin hull, making them most valuable as a feeding Oat. The straw is long, stout, and consequently stands up well, and does not lodge or twist. The Early Yielder Oat is very remarkable for its heavy stooling property, and for this reason 6 pecks (1½ bush.) is sufficient to seed an acre. Lb. 25c, by mail. Peck and bushel prices on page 53.

# DODD'S WHITE OATS STANDS UP DURING THE HEAVIEST STORMS.

Originated with a Scotch farmer, who selected it on account of its wonderful size. Has been thoroughly tested and approved for the North and North-West. Has yielded 4,752 lbs of cleaned seed per acre. This is 108 bushels of 44 lbs. each, or nearly 140 bushels of 34 lbs. each. The large white grains are immense, plump and handsome. The straw is very strong, and, consequently, during the heaviest storms, stands up well, and does not lodge or twist readily. Lb. 25c, by mail. Bushel prices, see page 53.

### SPELTZ OR EMMER

Has given splendld good results in the North-West. For fattening cattle, poultry, horses, sheep, pigs, etc., it is claimed to be ahead of other grains. Yields well and makes excellent pasture. Sow at the rate of 50 to 60 lbs. per acre. Lb. 25c, by mail. Bushel prices, page 53.

# ALFALFA OR LUCERNE CLOVER THE FARMER'S MONEY MAKER

(Lucerne Clover) (MEDICAGO SATIVA).—Sow with oats at the rate of 15 lbs. per acre.
 The first season the growth will be very light, but the next season you will probably get from 3 to 5 tons per acre, and it increases for several years, producing very large yields. Can be cut three or four times in one season. Unequalled for sowing on side hills or dry soils. As Alfalfa is a warm-weather plant, do not sow until ground has become warm. May or June are hest months when sown alone. Not adapted to low, wet soils. To Pasture Alfalfa. —Sow 5 lbs. Orchard Grass with 15 lbs. of Alfalfa. The Orchard Grass will protect the crown of the Alfalfa roots so that pasturing will not injure it to such a great extent.
 RENNIE'S XXX ALFALFA SEED (Northern Grown).—Lb. 45c, by mail.
 TURKESTAN ALFALFA.—Claimed to yield far heavier crops than ordinary Alfalfa or Lucerne. Has withstood the severest winters—40 degrees below zero when the ground was bare. Lb. 45c, by mail.

- Lucerne. Has withstood the severest winters-40 degrees below zero when the ground was bare. Lb. 45c, by mail. CANADIAN VARIEGATED ALFALFA.—The Hardiest Alfalfa Clover grown and es-pecially recommended by the Agricultural Department at Ottawa and Guelph. A selection of northern grown Alfalfa claimed to be superior to others, both as to productive-ness and extra hardiness, surviving severe winters where other varieties killed out. The seed we offer is Canadian grown, and without exception the finest obtainable. Stock limited. Lb. 80c, by mail. For quantify prices, see page 53. NITRO-CULTURE.—Only one size culture is prepared, each one containing ample bacteria to inoculate one bushel of seed, the equivalent, in the case of alfalfa, of three acres. The entire culture may be used on less than a bushel of seed without harm. The cultures are good for six months after being made. They are sent by mail with full directions for inoculating the seed. Price, \$1.00 per culture to purchasers of Alfalfa Clover.

ALFALFA CLOVER INCREASED RETURNS BY USE OF NITRO-CULTURE

[1916]

Western Rye Grass (AGROPYRUM TENERUM).--A grass for alkali lands. Resists drought and cold. Makes early pasturage and good hay. Is easily sown. One of the best Western bay grasses. Sow early in July, 15 lbs. to the acre. Rev mail. Ib. grasses. Sow early By mail, Ib..... 

Wood Moadow Grass (POA NEMORALIS).-By mail, 

# **CLOVERS AND** TIMOTHY **RENNIE'S XXX HIGH-GRADE**

Sold in sealed bags. Sown by the most critical farmers everywhere. For many years, as seedsmen to the best Canadian farmers, we have given the closest attention to the re-cleaning of Clover and Timothy Seeds. Our cleaning plant 

### TIMOTHY

RENNIE'S XXX (PHLEUM PRATENSE).-Sold in sealed bags. The highest standard of excellence is maintained in our Rennie's XXX Timothy as in Rennie's XXX Clovers. By mail, lb. 30c

For prices in larger quantities see page 53.

# **INOCULATION OF SEED** TO INCREASE THE CROP

"Alfalfa often fails, even though all the physica conditions seem favorable, because the bacteria which live in the nodules on its roots are not pres-ent in the soil. This deficiency may be supplied by getting soil from an old alfalfa field or from fields where sweet clover or burr clover has previously been grown with success, or by means of artificial cultures." Alfalfa from inoculated seed, being more vigorous, does not winter kill in severe climates as readily as plants from un-inoculated seed. inoculated seed.

FIG. 1—Portion of root of alfalfa plant showing the tubercles or nodules formed by the nitrogen-gathering legume bacteria. (Photograph natura size.)

Only one size culture is prepared, each one con-taining ample bacteria to inoculate one bushel of seed, the equivalent, in the case of alfalfa, of three acres. The entire culture may be used on less than a bushel of seed without harm. The cultures are good for six months after being made. They are sent by mail with full directions for inoculating the seed. Price, \$1.00 per culture to purchasers of Alfalfa Clover.

NITRO-CULTURE .- Write for circular and prices.

THE GARDENER'S

# AUTO-SPRAY No. 1.

COMPRESSED AIR SPRAYER

The Auto-Spray No. 1 is the strongest and most simple in its

working parts of any compressed air sprayer. This Sprayer is equipped with our patented Non-Clogging Nozzle. Uses: For spraying trees, shrubs, vines, field crops, green-houses and poultry houses; for applying Paris green, arsenate of lead, bordeaux, lime, and sulphur emulsions, disinfectants, cattle-

Figure 1, bordeaux, mine, and suppur emissions, dismittenetants, extributions, of the support of the support

will not correde with strong solutions and will last indefinitely.) The entire machine is made without screws or bolts, and no tools of any kind are required to take it apart. Special Features: Strength; simplicity and balanced con-struction; a nozzle which does not and cannot cleg, and the only cleg-proof nozzle on a compressed air sprayer. Equipment: The Auto-Spray No. 1 is equipped complete for spraying, with attachments as follows: 2 ft. 3-inch 5-ply hose, solid stream nozzle, fine spray nozzle and shut-off as selected. How to Use: Full instructions, illustrated repair list, and authoritative spray calendar, furnished with each machine. Guarantee: The manufacturers guarantee the Auto-Spray to be perfect mechanically and to give satisfaction in every case. Attached to every Auto-Spray is a tag bearing their iron-clad guarantee. guarantee.

CHOICE SPRAYER DEMINO

Gardener's Choice Sprayer is a most convenient spraying outfit for general use. It is particu-larly adapted for both the garden and green-house, also for orchard use. It is a splendid whitewashing outfit, as the pump is strong and durable and has a good agitator. Price. S22.75 Extension and a stra

PLANET IR. DESCRIPTIVE AND ILLUSTRATED CATALOGUE SENT ON APPLICATION.

EQUIVALENT CALF REARING

THE GOVERNMENT TEST shows "Cream Equivalent" to contain a much higher percentage of real value than others.

A LITTLE GOES A LONG WAY.-You can make 450 gallons of rich nutritious gruel with an ordinary hundred-pound bag of Cream Equivalent if mixed with separated milk, or 800 Gallons without the separated milk.

"Cream Equivalent" not only makes a large quantity of gruel, but it has also an extremely wholesome and appetising flavor.

"Cream Equivalent" contains practically twice as much oil as the average call meal, and as oil or fat is the most important constituent of a meal of this kind, this fact enhances its value considerably, as a substitute for milk, over other calf meals.

Registration No. 82. Analysis-Oil 14%, Albuminoids 14%.

BIBBY'S CALF MEAL.—Does not contain as much oil as "Cream Equivalent," but is richer in protein and is recommended for growing Calves and young Pigs. This Meal is registered by the Dominion Government at Ottawa under number 333, and experts there state that they found it fully up to the British maker's claims, as follows:— Analysis: Protein 20%, Fats 7%. Price at Tereate or Meatreal, per 100 the 4.55 Ibe. \$4.50.

Sold by leading Canadian Merchanta all over Canada. Write us if your local dealer does not stock them.

# TRIUMPH COMET ASTERS

A magnificent new class of mid-season Asters, with extra long stems and large, fluffy, full double flowers of the finest type. In season, Triumph Comet Asters are between extra early and the Early-Branching varieties. Splendid Rochester flowers of the best type, on tall, upright plants. A great improvement over any Upright Comet heretofore offered, in size of plant, length of stem, and size and perfection of flower.

# RENNIE'S SUPERB ASTERS

[1916]

Asters are one of the most important summer and autumn flowers, and receive special care at our hands. Yearly exhaustive tests of both homegrown and imported stocks are made with a view to offering only the choicest kinds, regardless of cost. As a result of this care our list comprises only such sorts as can be planted with perfect confidence that nothing better is procurable, no matter at what price or from what source.

### NEW GIANT ASTERMUM CANADIAN GROWN

A splendid new type of the Giant Aster, of immense size, centre very full. The following is the description by the raiser, Albert A. Sawyer: "The plant itself grows straight up, with very strong, sturdy stems, starting near the base and reaching from 18 to 24 inches. The three colors are unsurpassed; the lavender has never been produced before, the pink is the beautiful pink of the rose, and the white is as white as the driven snow." The accompanying illustration shows the fine character of this new flower, which will prove a revelation to Aster-lovers.

| 1153. | Mixed ColorsPkt. of 100 seeds |  |

# RENNIE'S GIANT OSTRICH FEATHER

The finest type of the Giant Comet or Ostrich Feather type of Aster. Much larger than the Giant Comet, the petals longer, more twisted, and produced in greater abundance. Borne on long stems, they make cutflowers par excellence.

| 1154. | Crimson       | 1158. Shell Pink |

NEW GIANT ASTERMUM

60

GIANT CREGO ASTERS ARE EXCELLENT FOR CUTTING FOR TABLE DECORATION.

# **RENNIE'S XXX GIANT COMET ASTERS**

A magnificent class, of strong growth, attaining a height of about 15 inches, of branching habit, with magnificent flowers on stems over a loot long. Flowers extremely loose and graceful—a grand type for cutting. We make a specialty of this sort, and the seed offered here is extra fine, saved from the largest flowers only. 1187. DARK BLUE......10c 1188. ROSE AND WHITE 10c 1189. MIXED, All Colors...10c 1190. Collection of 6 Colors.50c 

### **ROCHESTER ASTERS**

A splendid new race of American-raised Asters, selected from the Comet type. The plants are of upright growth, frequently having 12 to 15 strong, sturdy stems 18 to 24 inches long, each carrying enormous flowers of splendid form, the petals completely covering the centre so as to give the impression of one of the large Japanese chrysanthemums. This Aster has been grown with er-cellent success this past season.

### DAYBREAK ASTERS

1198. DAYBREAK.—Rounded, very large and full, on long stems; the color sea-shell pink; it flowers very early and is a continu-ous bloomer; compact, strong grower. 15 in.......10c 1199. PURITY.—Resembles Daybreak, excepting in color, which is clearly the strong strong

is glistening pure white......10c

# **DWARF QUEEN ASTERS**

This splendid Aster makes low, compact, bushy plants, which produce a great number of double, extra large flowers like the Victoria Aster, 3 inches across. Excellent for bedding and for pots. 

## QUEEN OF THE MARKET

The best early Aster, usually in full bloom two weeks before most other sorts begin to blossom. Of graceful spreading habit. 10-

Universal favorite for winter and spring blooming. Sown early, under glass, will make flowering bulbs the first year. Germination 40 days. HOUSE FLANT.

#### DAHLIAS

## **RENNIE'S XXX BURBANK MIXTURE—DAHLIA**

1727. Blooms First Year from Seed.—Luther Burbank writes: "This seed will produce a greater pro-portion of large, clear, bright-colored, perfect double flowers than any ever before offered; 90 per cent. of good flowers can be expected." The colors are salmon, light and dark crimson, deepest purple to maroon, and almost black, light straw, deepest yellow and a few white, mostly of the Cactus type. Dahlias can be raised from this seed, and will bloom the first year, even if sown late in May.20c DAHLIA ROOTS.—See pages 79 and 80.

RENNIE'S XXX EXHIBITION MIXTURE

## RENNIE'S XXX EXHIBITION PANSY

 2357. RENNIE'S XXX EXHIBITION MITURE.—Something entirely new. This miture includes the finest varieties of Giant-Flowering Pansies. The individual potals are exceedingly broad, and cover each other in such a manner as to make the flowers appear almost double. Being conspicuonaly undulated and curled gives the flowers a striking and very beautiful appearance. 4 oz. \$1.25, pkt.

 2358. PEACOCK.—Upper petals ultramarine blue, resembling the color in the feather of the peacock, from whence it derives its name; the form and subtance of the flower are perfect.
 .5c

 2359. BUGNOT SUPERB (GIANT MIXTURE).—Flowers of enormous size, petals of great substance and velvety appearance, each one bearing a large, deeply colored blotch that runs out in delicate veins to the edge; shadings very rich.

#### **RENNIE'S PERFECTION PANSY**

2356. RENNIE'S PERFECTION.—This variety, now so well known, has been greatly improved, containing many new shades of color, beautifully marked. For variety of markings, beauty of form, large size, good substance, splendid sating texture, they cannot be excelled. "Rennie's Perfection Mixture" is without a rival. ‡ oz. \$1.00, pkt...... 25c

RENNIE'S PERFECTION MIXTURE

#### [1916]

For outdoor decoration or house culture few plants equal the Petunia in effective-ness. They commence flowering early, and continue to bloom throughout the whole season until killed by frost; easily cultivated, only requiring a good soil and sunny position. We have long been celebrated for our magnificent strains of both the single and double varieties, which we endeavor to improve each year by careful selection and hybridization. We have tested samples received from the leading Petunia specialists of the world, and can easlely say without fear of contradiction that our strain is the best that can be secured from any source at any price.

#### DOUBLE LARGE-FLOWERING PETUNIAS.

Nore.—It is well known that seed saved from the most careful hybridized flowers produce but a small percentage of double flowers, the balance being single of unusually fine quality. The weaker seedlings should be carefully saved, as these invariably produce the finest double flowers. The same is true of the single sorts, the large, strong seedlings usually being weedy, while the, at first, weaker seedlings produce the very finest flowers of best colorings. It is best to sow Petunias indoors and trans-plant to the open in May. The Single Bedding kinds can be sown right out of doors in May.

2397. RENNIE'S SUPERB DOUBLE FRINGED, Mired.—We pride ourselves in offering the finest strain of Double Fringed Petunia to be found anywhere. Re-markable lor brilliancy and variety of color, large size, and beautiful shape; mixed colors.

mixed colors ..... 40c

2398. LARGE FLOWER-ING DOUBLE FRING-ED, Mixed.—Unsurpassed for richness and delicacy of tint; various shades. 30c

of tint; various shades. Suc 2399. RE N N IE'S X XX DOUBLE STRIPED AND BLOTCHED MIX-TURE.—This strain in-cludes all shades, and will produce a very large per-centage of beautiful double forware. 

#### **RENNIE'S** GIANT SINGLE PETUNIAS

RENNIE'S XXX DOUBLE MIXTURE house or window culture. They produce showy flowers in profusion. Although perennial, they flower in a few weeks' time from seed.

## CHRISTMAS or EARLY-FLOWERING SWEET PEAS

Mr. Morse, the Sweet Pea Specialist, says this class has not generally been recognized by experts, but where the season is short and backward or where flowers are required very early, this especially attractive strain is just what is wanted. Blooms in four months from sowing seed. Prices: per 1 ib. 90c, oz. 30c, pkt. 100 2670. EARLIEST OF ALL .- Best of the popular types; standards deep rose, wings white.

2671. LE MARQUIS (Christmas Navy Bine) .- This is an early-flowering type of navy blue.

2672. MRS. ALEX. WALLACE.-Flowers of a pinkish lavender, changing to pure lavender as the flower ages; for winter forcing.

2673. MRS. CHAS. H. TOTTY.-Flowers of a beautiful sky-blue or light lavender. The flowers find quick sale in winter and spring.

2674. MRS. E. WILDE .- Bright rose. Very early in the open ground. and excellent for forcing.

2675. MRS. F. J. DOLANSKY .- This early-flowering variety is of strong, vigorous growth, and produces self-colored flowers of a bright pure pink.

2676. MRS. WM. SIM .- Best early-flowering rich salmon-pink. Flowers are produced on long stems.

2677. MONT BLANC .-- Of dwarf growth and extremely early; a pure paper-white.

2679. CHRISTMAS MIXED.

#### GENERAL LIST OF SELECT SWEET PEAS

Prices: per { ib. 50c, oz. 20c, pkt. 5c (except where otherwise quoted).

2685. DOROTHY ECKFORD .- Largest and best white.

2686. LADY GRISEL HAMILTON.-Light lavender.

2688. KING EDWARD VII.-Bright crimson; giant flowers.

2692. JANET SCOTT.-Clear, bright pink.

2693. LOTTIE ECKFORD .- White, suffused with lavender blue.

2694. LORD NELSON OR BRILLIANT BLUE.-A dark strain of Navy Blue. Very dark.

2695. MISS WILLMOTT .- Orange rose.

2696. HON. MRS. E. KENYON.-Fine large, clear primrose

2697. LOVELY .- Beautiful soft shade of pink.

2698. PRIMA DONNA.-Extra large flowers, clear pink hood.

# **RENNIE'S BEST** SPENCER OR WAVED GIANT **ORCHID-FLOWERED SWEET PEAS**

The introduction of this type has created new interest, and added to the popularity of Sweet Peas. They are quite distinct from the standard sorts, having large, round, open flowers of extraordinary size, usually measuring two inches across, with wavy standards and wide-spreading wings, a very large percentage bearing four of these immense blossoms to the stem, which is long and strong, making them of exceptional value for withing. All of the sorts offended below how how how the provided the standard cutting. cutting. All of the sorts offered below have been thoroughly tested, and are just as easy to grow as the standard varieties.

#### Prices: 1 ib. \$1.50, oz. 50c, pkt. 10c.

- 2047. MRS. HUGH DICKSON SPENCER (Apricet).—One of the most chaste and charming varieties yet obtained. The coloring is a rich pinkish apricot on a cream ground, shading off rather lighter toward the centre of the flower. The grantic flowers are of the best Spencer type, and nearly always borne in fours upon exceedingly long stems.
- 2648. NUBIAN SPENCER (Chocolate).—A new maroon or chocolate-colored self of great merit. The flowers are of truly giant proportions and beautifully waved. Usually four on a stem.
- 2651. HELEN LEWIS SPENCER (Orange Pink) .- Brilliant crimson orange, wings orange-rose.
- 2653. ASTA OHN SPENCER (Lavender) .- Soft lavender, suffused mauve.

2654. GEORGE HERBERT SPENCER (Rese Crimson).-Rosy ma-genta; wings of deeper carmine.

2655. KING EDWARD SPENCER (Red) .- The best pure crimsonscarlet.

2656. OTHELLO SPENCER (Marcon).-Very deep marcon; largest Spencer type, large wavy and drooping wings.

2657. PRIMROSE SPENCER (Primress) .- Best of the cream-yellow shades.

2658. WHITE SPENCER (White) .- Pure white.

2681. THOMAS STEVENSON SPENCER (Orsage Scarlet) .- The finest of the giant orange scarlet selfs. A strong grower, and produces four on a stem.

2661. CLARA CURTIS SPENCER (Cream).-Very large, wavy cream or light primrose.

2662. CONSTANCE OLIVER SPENCER (Rese Pink).—An exceedingly rich and beautiful variety of great marit. The ground color is cream, suffused throughout with rlch rosy pink, which becomes lighter toward the tip of the standard and wings. The flowers are extremely large, usually borne in fours on very long stems.

2682. EVELYN HEMUS SPENCER (Buff) .--- Buff, edged with pink.

2667. MRS. ROUTZAHN SPENCER (Apricot-pink) .- Apricot, suffused with delicate pink.

2680. COUNTESS SPENCER (Pink) .- Large wavy petals, soft rosepink.

- 2669. ZEPHYR SPENCER (Blue) .- Silvery blue, large and wavy.

PLEASE ORDER FLOWER SEED BY NUMBER ONLY.

TIME OF SENDING.—Many customers order both aceds and plants at the same time, early in the Winter. Seeds are sent immediately, and the plants and bulbs as soon as all danger from frost is past. All plant orders are filled in strict rotation as received. We usually commence shipping about the middle of April, according to the season.

(CUSTOMERS IN BRITISH COLUMBIA WILL PLEASE NOTE THAT PLANT ORDERS ARE FILLED DIRECT FROM OUR GREENHOUSES AT (SWANSEA) TORONTO, AND CANNOT BE SENT WITH SAFETY BEFORE APRIL.) PLANTS BY MAIL .- The prices of all plants and bulbs include postage except where quoted by express. If shipment is made by express much larger stock is sent, but charges are not prepaid.

PLANTS BY EXPRESS .-- We slways recommend customers to receive their plants and bulbs by express (whenever it is possible), as the stock we send is usually larger and better value for the same money.

# CALLA LILIES

ELLIOTTIANA (Giant Yellow).—This is the great new Yellow Calla of marvellous beauty. Flowers very large and of the brightest golden yellow. Leaves beautifully spotted with white. Its great size of bloom, brilliant yellow color, and glorious large spotted leaves, make gthis a plant of unusual beauty and novelty. Strong flowering bulbs. Each 35c, dez. \$3.25

SPOTTED LEAF CALLA. (Richardle Alba Maculata) .- Leaves deep rich green, exquisitely ornamented with pure white marks; flowers pearly white, glossy black centre. Easily grown. RENNIE'S FRILLED BEGONIAS

# SUMMER FLOWERING BULBS

There is nothing in floriculture that will give greater satisfaction or produce such grand results as this class of bulb, which includes some of our showiest garden flowers. They are of the easiest culture.

#### AMARYLLIS

BARBADOS SPICE LILY (Johnsonii).—Probably the most magnificent and gorgeous flowering bulbous plant known. Free blooming; flowers very large, 6 inches across; crimson, striped white. Each S5c, doz. \$3.25

# **RENNIE'S SUPERB TUBEROUS-ROOTED BEGONIAS**

#### DIRECT FROM GHENT, BELGIUM.

Very few plants are better adapted to the summer decoration of the window garden, the verandah and the conservatory than the Tuberous Begonia. It is a constant and prolific bloomer, remarkably rich and varied in coloring, and so easy to grow that all persons succeed with it.

SINGLE TUBEROUS-ROOTED BEGONIAS .-- Flowers brilliant, large, handsomely formed, often measuring 4 to 6 inches in diameter. Bloom freely all summer. Fine either as pot or bedding plants. Scarlet, White, Salmon, Yellow, Rose, Orange. Large Bulbs, each 10c, any 4 for 80c, doz. 75c, 25 for......\$1.85

DOUBLE TUBEROUS-ROOTED BEGONIAS.—Unexcelled for sum-mer bedding, such as lawn beds and borders. They should be grown more extensively than they now are, for they require no more care than ordinary bedding plants. They will thrive either in full sunshine or partial shade, but when fully exposed to the sun the beds must be kept moist. Scarlet, White, Salmon, Yellow, Rose, Orange. Large Bulbs, each 15c, any 4 for 50c, doz. \$1.30, 25 for......\$2.50

FRILLED OR CRESTED BEGONIAS.—Interesting single-flowered strain of the tuberous-rooted Begonia. The flowers are large and ex-tremely varied in color, including rare shades of copper red, yellow, pink, etc. The most characteristic feature, however, is the curiously bearded or crested petal. Height about 1 foot. Excellent for pot plants or garden bedding, blooming all summer. Bulhs, each Stor, Com 00.82 dez.....

# **GIANT ORCHID-FLOWERED CANNAS**

Strong Roots, each 20c, don. \$2.00.

ITALIA .--- 41 fest. Bright orange-scarlet, with broad golden-yellow border; the flowers are produced on massive stems, set well above foliage, which is large and heavy.

KATE GRAY.--7 feet. Immense flowers, 6 inches across. Most flowers have five petals, giving them a double appearance. Rich orange scarlet, finely flaked, streaked with golden-yellow.

PENNSYLVANIA .- 6 feet. Green foliage; flowers immense; pure, deep scarlet. A very fine orchid-flowering variety.

ALLEMANIA.--5 leet. Green foliage. Outer petals are bright scarlet, with a broad yellow border, the inside colors being scarlet and dark red, beautifully mottled.

KING HUMBERT (King of All Cannas).-4 feet. Giant flowered, orange scarlet, bronze leaf. Of all the wonderful flowering and foliage plants introduced, this one takes the lead for size, color and habit.

#### GRAND BEDDING CANNAS

Strong Roots, each 20c, doz. \$2.00.

CHAS. HENDERSON.-31 feet. Color fine crimson, flower spikes large, well above foliage.

scarlet, with crimson spots.

FLORENCE VAUGHAN. - 3} feet. Finest yellow spotted variety. Flower spikes large; well-opened flower; golden yellow, dotted carmine.

HIAWATHA.--3 leet. Bronze foliage. Flowers delicate rosy pink, with border of clear cerise. Crimped petals.

GUSTAVE GUMPFER.-31 to 4 feet. An ideal rich yellow bedding Canna. The flowers of good size are held well above the foliage; habit of growth very uniform.

METEOR.-5 feet. Green foliage. The almost zling, crimson bloom produced is spectacular. Green foliage. The almost solid mass of deep, daz-

QUEEN CHARLOTTE .- Brilliant scarlet crimson, with a broad golden band around the edge.

ROSEA GIGANTEA .--- 4 leet Green foliage. A rich, rose-pink flower of giant size, and a prodigious bloomer.

CROWHURST SHOW DAHLIA

BED OF GIANT CANNAS

#### **RENNIE'S GRAND SHOW DAHLIAS**

This type is the most formal and perfect in shape. They make excellent compact bouquets.

Strong Field Grown Roots (except Crowhurst), each 25c, doz. \$2.25.

ARABELLA .- Pale primrose, shaded old rose and lavender.

A. D. LIVONI .-- A splendid clear pink, beautifully quilled.

BON TON .- Deep rich garnet in full perfect form.

BLACK DIAMOND .- Rich velvety maroon, shaded black.

CHAS. LANIER .- The largest deep yellow Show Dahlia to date.

CUBAN GIANT .-- Immense blooms of dark crimson. EMILY .--- Solferino, with white markings; very large and free.

EMPRESS MAUD .-- Soft blush.

JOHN WALKER .-- Large flowers of pure white; eplendid.

QUEEN OF THE BELGIANS .- Soft sea chell pink

RED HUSSAR .- Intense cardinal red; free flowering.

RUBY QUEEN.-Ruby red, richly shaded; large flowers.

YELLOW LIVONI .--- Flowers of medium size, but very perfect, of a soft lemon-yellow.

CROWHURST.—A long-stemmed, handsome White Double Dahlia for late cut-flower purposes, and one of the finest in existence. For free and continuous blooming qualities it is certainly the most profitable. 20c, doz. 00.82

#### **DECORATIVE DAHLIAS**

The Decorative Dahlias are an intermediate form between the Show and Cactus types. Many beautiful varieties have been introduced, some with flat petals, others reflexed, incurved or curiously twisted, and prac-tically all of them are leaders as cut flowers, bearing their large, perfectly formed blooms on long, stiff stems.

We sell only **Field grown roots**. Growing plants of Dahlias do not ship well; besides, the field grown roots are more likely to give a larger and finer crop of flowers. Our customers who have visited our stores during the season when Dahlias were in bloom had the opportunity to see our exhibition of flowers cut from our growing stock, and all correctly labelled.

Strong Field Grown Roots (except where noted), esch 25c, doz. \$2.25. \$3.00

JACK ROSE .- Brilliant crimson-red, similar in shade to the popular "Jack" Rose, which suggested its name.

JOHN ELITCH.—A very large flower, deep crimson. JUMBO.—Considered one of the best. Immense, and of distinctly unique form; rich glowing crimson, shaded maroon. LYNDHURST.—Brilliant cardinal-red. A fine cut flower. MAUVE QUEEN.—A delicate and dainty variety, of a pleasing shade of olost measure.

clear mauve.

clear mauve. MRS. C. W. BASSETT.—A pleasing delicate mauve-pink. Fine for cutting. Each 35c, doz. \$3.50 MRS. J. G. CASSATT.—A large-flowered mauve-pink of a shade that is very pleasing. A fine cut flower. Each 50c, doz. \$5.00 MRS. ROOSEVELT.—Beautiful light pink, shaded white towards centre. One of the most popular Dahlas ever introduced. Nothing has been found to take its place. Each 30c, doz. \$3.00 NYMPHAEA.—One of the most delicately beautiful. White suffused abrium pink.

shrimp pink.

PERLE DE LYON.—A splendid white variety. particularly valuable for cutting. Each 35c, dez.
 \$3.50

GIANT GLOXINIA (FROM BELGIUM)

DECORATIVE DAHLIA

#### **RENNIE'S DAHLIA NOVELTIES—Continued**

Each 40c, doz..... 

# **RENNIE'S GIANT CACTUS DAHLIAS**

The cactus forms of Dahlias are exceedingly beautiful, and are hard to sxcel. They have long twinted petals, and embrace nearly all the colore and shades to be found in any of the other types. To produce the finest flowers most of the side shoots or laterals should be pinched out when the plants gct strong, leaving the terminal buds, which then make fine flowers.

Strong Field-Grown Roots, Each 25c, Doz. \$2.25

Strong Field-Grown Roots, Each 25c, Doz. \$2.25 BRITANNIA.—A deep shade of salmon pink. COUNTESS OF LONSDALE.—A peculiar but pleasing blending of salmon-pink and amber, a color difficult to describe This is the Dahlia for the million. Blooms freely under all conditions. ELSE.—A charming variety, with a combination of delicate colors. The base of the petals is of buttercup-yellow, gradually passing to amber, finished with a tip of tyrian rose. FLORADORA.—Distinct blood red; very free flowering. KRIEMHILDE.—A most popular cut flower variety; color a brilliant pink, shading to white at the centre. MRS. H. J. JONES.—Very large, perfect, rich, bright scarlet, with cream-colored edge: occasionally comes self-colored. STANDARD BEARER.—Rich, fiery-scarlet; very free. WINSOME.—One of the best white Cactus Dahlias.

# **RENNIE'S GIANT GLOXINIAS**

Direct from Ghent, Belgium.

The grandest of all summer-blooming bulbs for decoration of the window verandah, or conservatory in summer. They are no trouble to grow, and bloom constantly until autumn, when they should be allowed a rest for three months. Our Giant Glorinias are great improvements over the older sorts. Flowers of the most exquisite coloring, often tinged, spotted or edged with contrasting colors; always rich and beautiful.

WHITE, SPOTTED, BLUE, SCARLET.-Each 15c, doz. \$1.50, 25 for \$2.75

OUR SCARLET GLADIOLI IN MASSED BEDS CANNOT BE EQUALLED FOR BEAUTY OF DISPLAY.

GENERAL MACARTHUR

N.B.-Roses which proved hardiest at the Experimental Farm, Ottawa, are marked \*, second choice \*\*. Sorts not marked have not been tested there, but are considered hardy.

HYBRID TEA ROSE-GRACE MOLYNEAUX

# RENNIE'S SELECT (EVER-BLOOMING) HARDY HYBRID-TEA R

These are unquestionably the true perpetual hybrids; the strong infusion of Tea blood into the old perpetuals has, by judicious hybridization, produced in the last decade an entirely new race of Roses. No words of praise can adequately convey the extreme beauty and unique usefulness of this glorious section, which now dominates all other sections of Bedding Roses. The superb vigor, the healthy and abundant growth and foliage, the profusion of bloom, the exquisite coloring and beautiful formation of the flowers and buds of this new race, at once place it without a rival in the rose garden. These Everblooming Roses remain in bloom from June till October, and while they are quite hardy, we recommend usual protection during the winter. winter

Our cultural leaflet, "HOW TO GROW ROSES," free with all orders if requested.

banked

for winter

PLANTING TIME.—The broad extent of our country renders it impossible to give any specified date for planting. Midspring is the best time, and it is better to be a little early than late. Dormant roses should be planted as soon as the frost leaves the ground and it is dur, anough to calkingthe ground and it is dry enough to cultivate.

Too deep

Just right Too shallow and set wrong

TO PROTECT HYBRID TEA ROSES OVER WINTER.—Cover each rose bush with six or eight inches of earth shove the ground in the Fall. In Spring, the bush may be pruned back to the beight it was covered with earth in the Fall. Re-neve the covering stradually in the move the covering gradually in the Spring when danger from frost is past.

Showing where to prune

Extra strong 2-year-old bushes, each 40c, doz. \$3.75 (except where moted). delivered by mail. Heavier plants sent when ordered by express (not prepald).

- ANTOINE RIVOIRE.—Rosy flesh, yellowish at the base; a full carelia-shaped flower, pretty and very attractive; extra fine.
   AVOCA (Irish) (Dickson).—Crimson-scarlet, buds very long and point-ed, flowers large and sweetly perfumed. Specially good as a cut back. Gold medal, N.R.S.
- Gold medal, N.R.S. \*BESSIE BROWN (Irish).—Creamy-white; flowers of immense size; petals smooth and shell-shaped; very free blooming and sweetly scented; a distinct and valuable exhibition rose. \*BETTY (Irish).—Very large flowers of splendid form; color coppery-rose, shaded golden yellow, flowering freely up to the winter; fragmant. \*CAROLINE TESTOUT.—Light salmony pink; flowers very large and globular; quite distinct; a grand garden variety. \*CAPTAIN CHRISTY.—Fleshy-white; centre richer in color; large, full: most useful.
- most useful

- full: most useful.
  \*\*COUNTESS OF GOSFORD (Irish) (McGredy).—A splendid free-flowering Rose, of large size, and full, long, pointed buds of a beautiful salmon-pink rose, the base of petals suffused with saffron-yellow.
  \*DEAN HOLE (Irish).—A perfect flower of great beauty; color silvery-carmine, shaded salmon; distinct. Awarded the Gold Medal.
  \*DOROTHY PAGE ROBERTS (Irish) (Dickson).—Coppery-pink, suffused with apricot-yellow, more especially at the base of the petals, which are very large, massive, and of great substance. An ideal garden Rose of wonderful charm and fascination.
  EDWARD MAWLEY (Irish) (McGredy).—The color is a deep rich velow.

DO, NOT FORGET TO ORDER SOME OF OUR SELECT HARDY IRISH ROSES.

# **RENNIE'S HARDY HYBRID-TEA (Ever-Blooming) ROSES** -Continued

When ordered hy express, we send extra heavy stock. Extra strong 2-year-old bushes, each 40c, doz. \$3.75.

\*ECARLATE.-Produces only medium-sized flowers, but is such a brilliant scarlet in color and such an incessant bloomer that we count it among the best bedding varieties.

\*\*ELIZABETH BARNES (Irish) (Dickson).—Satiny salmon rose, with a fawn centre suf-fused with yellow, outside of petals deep rosy red shaded with copper and yellow; large, full, perfectly formed; delightfully fragrant; superb.

\*ETOILE DE FRANCE.-Flowers large, of magnificent form; very full; color red crimsonvelvet; very fragrant.

GENERAL MacARTHUR .- Dark velvety scarlet; free and perpetual; one of the best bedding and decorative roses grown.

GUSTAVE GRUNERWALD .- Carmine-pink, centre yellow, large, full, of fine form; buds long and pointed; one of the best.

\*GEORGE C. WAUD (Irish) (Dickson).—A beautiful variety, possessing a shade of color hitherto unknown among Roses—a glowing vermilion with orange-red suffusion. The flowers are large, full, of perfect form, and highly tea-scented. The plant is of vigorous growth and very free-flowering.

GRUSS AN TEPLITZ .- Bright crimson, with fiery red centre; very free blooming and hardy; good for bedding.

\*H. ARMYTAGE MOORE (Irish).-Rosy pink on outside of petals; inside of petals delicate silvery pink; a fine decorative rose.

HIS MAJESTY (Irish) (McGredy).—The color is a fine, dark crimson, shaded deep vermilion crimson towards the edges. It is a strong, vigorous grower; the blooms are full, of great size, having wonderful depth of petal, with high-pointed centre of the ideal exhibition type.

- \*J. B. CLARK (Irish).—The color is unique among roses, being deep scarlet shaded black-ish crimson, with a rich bloom like a plum; flowers are large and beautiful.
- \*JOSEPH HILL.—A perfect gem; of strong, clean, vigorous growth, remarkably free-flower-ing; in color a lovely shade of salmon-pink; the perfect flowers are large, full and double.
- K. AUGUSTA VICTORIA.—Cream, slightly shaded lemon; deeper in the centre; a distinct and very beautiful variety.
- \*KILLARNEY (Irish).—Pale pink, long pointed buds, opening to large flowers; a lovely and distinct variety of great merit; splendid for bedding.
- \*LADY ASHTOWN (Irlsh).—The flowers are large, double, with high-pointed centre, and are produced on long stems; splendid for cut-ting; in color a soft rose, shading to yellow at the base of the petals.
- \*LA FRANCE .- Bright silvery rose, extra large, full, and fine; one of the sweetest-scented roses; most free blooming, and very hardy.
- \*\*LA TOSCA.-Beautiful silvery-pink, with deeper centre; a very vigorous grower, with large, double flowers, and very free.

MY MARYLAND

LAURENT CARLE

- \*LADY URSULA (Irish) (Dickson) .- A truly magnificent Rose, of vigorous, erect growth, possessing exceedingly free-blooming qualities. A delightful shade of flesh-pink, distinct from all others; delicately tea-scented.
- \*\*LAURENT CARLE.—Deep rosy carmine; flowers large, full, and of fine form carried on good stems; free flowering; a really good Rose.
- \*LE PROGRES.—Nankeen-yellow, lighter when fully expanded; flowers large, full, and of cupped form; a fine yellow Rose.
- \*\*LIEUT. CHAURE.-Velvety crimson red; flower large and full, possessing petals of great depth and nice cupped form.

SCARLET LYCHNIS \$2.50

HARDY SUNFLOWER 

# **RENNIE'S SUPERB P**ÆONIES

The "Queen of Spring Flowers" are well adapted for massing in beds, and particularly valuable for planting in groups throughout the perennial border, where their brilliant hues add attraction to all around. Their requirements are so simple—a good, rich, deep soil, and an open, sunny position; which, however, is not absolutely necessary, as they thrive almost equally as well in a partly shaded position. They are perfectly bardy reviewing a protection whethere use in the prote server elimett hardy, requiring no protection whatever, even in the most severe climate, and once planted increase in beauty each year.

An important point to observe in the planting of Paconics is not to plant too deep. The roots should be placed so that the crowns are covered with 2 inches of soil. Asy sort, large roots, each 40c, doz. \$4.00.

ADOLPHE ROUSSEAU.---Very large, semi-double; purple-garnet; very' tall, vigorous grower; dark foliage, veined red. Early. One of the darkest.

AGIDA.-Violet rose.

- ALBA SUPERBA .- Creamy white, centre rose.
- ASA GRAY .- Bright lilac, sprinkled with minute dots of deeper lilac as if dusted on; very large.
- BERLIOZ .- Perfect form; large magenta rose color; silver tipped; late. BOULE DE NEIGE.—Very large, medium, globular, compact, semi-rose type. Milk-white; guards and centre prominently fleeked crim-son. Tall, erect, free bloomer; extra good. Early midseason.
- CARNEA ELEGANS .--- Of a clear flesh color, glossy reflex. A free
- bloomer. DUCHESS DE NEMOURS.—Large, sulphur-white. There is nothing so exquisitely chaste as this variety in a half-open state. A good, profuse, sure bloomer; delicately fragrant. Fine habit. Splendid cut-flower. Blooms early.
- DUKE OF WELLINGTON.—Guard petals white, very broad; centre petals sulphur-white, narrow and very full. The large, finely formed flowers come on long, firm stems. A good free bloomer; deliciously
- fragrant.
- EDOUARD ANDRE.—Deep, brilliant, crimson-red full flower with metallic reflex, showing golden yellow stamens. A globular-shaped large bloom of great effect. Earliest of the dark reds to bloom.
- EDULIS SUPERBA.-Beautiful brilliant crimson, silvery reflex; large, well-formed, full flower on strong stems. Blooms early. Lasts well. Fragrant and good in every way.
- EUGENE VERDIER .-- Immense globular flowers, delicate flesh color, deepening towards the centre.
- FELIX CROUSSE .- Large, ball-shaped bloom; very brilliant red; one of the finest self-colored varieties.
- FESTIVA MAXIMA.—This truly superb variety, the finest white in cul-tivation, combines wonderful purity of color, freedom and earliness of flower.
- GLORIA MUNDI.-Pure white, salmon centre; very free flowering; most useful for cutting.
- GRANDIFLORA ROSEA .- Full globe-shaped flower; light solferino red petals: salmon centre.
- LADY BRAMWELL .- A beautiful silvery-rose, of fine form.
- LA TULIPE.—Flesh-pink, shading to ivory-white, centre petals tipped and outer petals freely striped with yellow. Large, very fragrant, globular flowers, borne on long, stiff stems; very strong grower. Very striking bud, distinct and desirable.
- L'ECLATANTE .- Large, showy, brilliant red flowers in clusters
- L'ELEGANTE .- Light rose, with yellow centre.
- LIVINGSTONE .- Very large and free-flowering; pale lilac rose. with silver tip; central petals flaked with crimson.
- L'INDISPENSABLE .- Immense flowers of a delicate lilac pink, with darker shading towards the centre; late-flowering.
- LOUIS VAN HOUTTE .- Brilliant crimson-marcon of good size
- MADAME COSTE.—Medium size, globular bloom, developing a low crown. Guards and centre hydrangea-pink, collar cream-white, centre flecked with crimson. Fraghant; free bloomcr; early

## **RENNIE'S BEAUTIFUL HARDY** PHLOXES

These grand, hardy, flowering plants are most deservedly popular on account of their rich profusion and great variety of bloom. The large trusses of brilliant flowers comprise all colors from white to crimson striped and mottled. They are of easiest culture, and during late sum-mer and fall months make the garden bright with their wealth of bloom.

The following varieties, all recent introductions, embrace not only new shades of color, but also form plants of strong, sturdy yet compact habit of growth which place them among the most desirable sorts, particu-larly for massing in large numbers.

Any of the following choice sorts, extra strong roots, 20c each, doz. \$2.25 AFRICA .- Rich royal purple, suffused crimson. This shade in Phlox is much in demand.

AMERICA .- Very large; light mauve-rose, very large, dark carmine eye. ASIA.—Rich shade of mauve. This is one of the finest of the newer kinds. The color is entirely distinct and must be seen to be appreciated.

BALL OF FIRE .- Bright cherry red, pale centre.

BARON VAN DEDEM.-New. A novelty of the style of Coquelicot, but produces larger trusses and flowers; color glistening scarlet-blood-red COQUELICOT .- The most brilliant orange-scarlet.

DOREEN .- Fine shade of salmon rose, dark-colored centre.

ECLAIREUR .- Bright rose-carmine, with light halo.

ELIZABETH CAMPBELL.-New. Very large spikes, with flowers of a quite new color-light salmon, changing to pink in the centre. Extra.

ETNA .- Brilliant orange-red; large flowers and branching spikes; extra. EUGENE DANZANVILLIERS.—Delicate lavender; very attractive and decorative color; immense flowers. The peer of its color.

G. A. STROHLEIN.—Beautiful novelty; scarlet-orange flowers, with bright carmine eye; extra large flowers and enormous clusters.

GOLIATH.—A new distinct variety of attractive appearance. It is of gigantic growth, producing large trusses with flowers of a bright carmine color, with dark carmine red centre. A decided acquisition, and flowering very early.

(RIS.-Purple blue.

JEANNE D'ARC .- One of the latest white flowering, and for this reason

Should be included in every collection. JOSEPHINE GERBEAUX.—Pure white, with a very large rose centre, beautifully blended. LORD KELVIN.—Brilliant red.

MADAME ANTOINE BUCHNER.—This is one of the finest pure white Phlox. It has a strong habit and produces flowers of an enormous size— often larger than a silver dollar—and perfect form.

- MADAME PAUL DUTRIE.—Delicate soft pink; resembles a delicate orchid. The flower trusses are enormous.
- PANTHEON.—Cerise-salmon, while centre; large branching spikes. RYNSTROOM.—A splendid new Phlox with gigantic flowers of a bright pink. The growth is quite tall, the flowers come early and continue in bloom till frost; truly a grand variety.
- SELMA.—Tender soft pink with a large crimson centre. A lovely new variety of perfect form. SNOWBALL.—Immense flower-heads of purest white; dwarf growth.
- VAN LASSBURG.—The queen of all clear white Phlores. Trusses and single flowers are immense in size. As the plant is rather dwarf, it should always be planted in the foreground.

# IMBING VINES

HARDY).—These most useful and beautiful plants are becoming more popular every year, and deservedly so. For beautifying summer houses, trellises, varandahs, and walls, etc., they are invaluable. All are of easy culture, and once planted require very little attention. (HARDY).-

#### AMPELOPSIS-BOSTON IVY

In planting Ampelopsis of all kinds, the plants, if still in a dormant con-dition, should be cut down to within 6 inches of the ground, so that the new growth may cling to the wall or tree from the bottom up. VEITCHII (Boston Ivy).—Grows as rapidly as the old Virginia Creeper, is entirely hardy, and clings firmly to any wall, tree, etc. The leaves are small on young plants, which at first are of an olive-green brown color, chang-ing to bright scarlet in autumn. With age the leaves increase in size. I year-old, each 50c, doz. \$2.00; 2-year-old, each 30c, doz. \$3.00; extra strong 3-year-old, each 50c, doz.

ROBUSTA PURPUREA.—An improved Boston Ivy, of which it is a variety. Remarkably strong and sturdy in habit. Strong 3-year plants. each 50c. doz. \$5.00, by express.

#### VIRGINIA CREEPER

QUINQUEFOLIA (Old Virginia Creeper).—A strong rapid grower, large dark green foliage, changing in autumn to bronze and bright crimson. Each 25c, doz. \$2.50

#### ENGELMAN'S IVY

ENGELMANNI (Engelman's Ivy).—One of the hardiest, best and quickest growing climbers for the north and northwest. Quite similar to the Virginia Creeper, but vastly superior to it, the foliage being cleaner, of greater sub-stance, and not turning yellow during the early fall, and almost perfectly free from insects. The leaves color up beautifully in the fall. 2-year-old, each 50c, doz. \$5.00; 3-year-old, each 75c, doz. \$7.50

#### DUTCHMAN'S PIPE-ARISTOLOCHIA SYPHO

#### **TRUMPET VINE**

#### **CINNAMON VINE**

(Dioscorea Batatas).—A rapid-growing climber, taking its name from the peculiar fragrance of the delicate white flowers. The leaves are heart-shaped, bright glossy-green; growth is very rapid, often running 25 to 40 feet; quite hardy. Extra large roots, each 10c, doz. \$1.00, postpald.

#### JAPANESE CLEMATIS

MADEIRA, or MIGNONETTE VINE BOUSSINGAULTIA BASELLOIDES — An old-fashioned popular vine, cov-ering a large space in a short time. Fleshy heart-shaped leaves of a light green, and numerous racemes of feathery white flowers of delicious fragrance. rotect with litter in this latitude. Stresg tubers, 4 for 20c, doz ..... .60c

#### AMPELOPSIS

#### THE SILVER VINE

ACTINIDIA POLYGAMA.—A desirable Japanese climber, of vigor-ous growth, the foliage being a glossy dark green. The flowers are ous growth, the foliage being a glossy dark green. The flowers are white with purple centres and are followed by clusters of edible fruit. An excellent plant for covering arbors, and where a rapid, dense growth is desired. Strong 3-year plants, each 50c, doz. \$4.75

#### **DUTCHMAN'S PIPE**

ARISTOLOCHIA SYPHO .- A vigorous and rapid growing twiner, bearing singular brownish-colored flowers, resembling in shape a

\$5.00

CLIMBING HONEYSUCKLE

## LARGE-FLOWERING HARDY CLEMATIS

This family of Climbing Plants are probably more popular than any other. Some of the small flowering varieties are exceedingly fragrant, which is especially noticeable in the evening. The large flowering types make a glorious effect on account of their gigantic blooms and striking appearance. In planting, care should always be exercised to see that the crown, from which the vine starts, is set down 2 to 3 inches below the surface, to prevent being broken off. In the winter put a covering of straw, long manure or leaves around the roots. All Clematis delight in plenty of water in dry weather, and good drainage. Our list of large flowering sorts is limited to the best varieties, which bloom generally in June.

We are careful to send out only perfectly healthy stock, and cannot entertain any complaints on account of non-success with this class of plants.

- JACKMANI.—This variety, with its strong, healthy growth, hardy nature, and rich, deep velvety-purple flowers, is the most satisfactory of its class. Blooms with astonishing profusion on shoots of the present season; should be pruned early in spring.
- DUCHESS OF EDINBURGH .-- One of the best double whites, of vigorous habit, very free of bloom, and delightfully fragrant.
- HENRYI (Banghelm Belle).-Strong grower, flowers always eight-sepalled, 4 to 6 inches in diameter, and pure white. Very hardy.
- MME. BARON VEILLARD .- Light rose, lilac shadings. Much admired. SIEBOLDI.-Flowers of large size. A beautiful light blue in color. Strong grower. One of the best.
- VILLE DE LYON.—Its blooming capacity is great and the flowers of the most magnificent brilliant crimson. They are large and of beautiful circular form.
- MONTANA RUBENS.—Suitable for the North-West. This beautiful hardy new Clematis begins to bloom early in June when a profusion of soft rosy-red blooms resembling those of the Japanese Anemone are produced. As the flowers are borns on the young wood, they appear more or less freely until frost.
- Prices-Extra Size Plants for Immediate Effect. Many of our customera desiring immediate effect prefer this stock. Strong 2-year-old plants, each 50c, 3 for \$1.35, doz. \$5.00; extra strong 8-year-old plants, each 75c. 3 for \$3.10, doz. \$3.00, by express, not prepaid.

#### **CLIMBING HYDRANGEA**

SCHIZOPHRAGMA.—Although introduced from Japan in 1879, this grand climber is still rare. It is one of the most interesting of our hardy climbers. Its flowers, which are borne in large trussee, are similar to a white Hydrangea, and when in flower, during July and August, makes a handsome display. One of the best flowering vines for planting against a tree or wall, as it clings naturally to any rough surface. By express a structure shows and the surface of the surface only, Strong plants, each ..... \$1.00

## **KUDZU VINE**

JAPANESE KUDZU VINE.—This wondrous new vine, with ordinary treatment, will grow 70 feet in one season, turning everything it covers into a leafy loveliness. In three months it progresses as much as most vines do in five years. Adaptable to porches, arbors, fences, rockeries, old trees, etc. Perfectly hardy anywhere and in any soil; lasts twenty-\$5 00 five years or more. Each 50c, doz .....

## CHINESE WISTARIA (Hardy)

No plant, vine or shrub can equal the display made by the Wistaria. The graceful effect it produces is hard to de-scribe, the blue variety being especially attractive. They thrive best in the aun, and with an application of cow manure once or twice a season they respond marvellously by an extra growth and an abundance of flowers.

TUBEROUS-ROOTED WISTARIA (Asies Tuberesa).—A valuable hardy tubereus-rooted climber, resembling in miniature the common Wistaria in vine miniature the common wistaria in vine and foliage, and having clusters of rich, deep purpls flowers, which have a strong delicious violet (ragrance. They grow to a height of 8 to 10 feet, and bloom profusely. Plant 2 to 8 bulbs near together to produce a mass of vines and flowers. S ar 15c, des...75c 1916

#### RENNIE'S SEED ANNUAL

ALTHEA.-The Altheas are among the most valuable of our tall hardy Shrubs which is from August to October, a period when but few Shrubs are in flower. MOCK ORANGE (SYRINGA PHILADELPHUS)

Spirea Van Houttei Makes a Fine Hedge and is Perfectly/Hardy. Write for Prices on Large Quantity.

#### JAPANESE SNOWBALL

#### **SNOWBALLS**

Handsome hardy shrubs with showy flowers and foliage. They are not only attractive when in flower, but many species produce large and profuse clusters of bright or glistening berries, and the foliage frequently assumes brilliant and intense color tones in autumn. As specimen plants, the showier forms, like the Snowhalls, have few rivals, and for grouping or massing, the humbler members of the genus make possible many charming effects. The species described below thrive best in moist soils in sumy situations.

NOTE:--We offer a limited quantity of Snowballs in "Tree Form." These are trained up to a single stem allowing branches to come out three or four feet from the ground. They give a pleasing variation from the regular shrubbery effect, and in connection with the "Hydrangea Tree Form" are very desirable for lawns. Express enly, each 75c, dez. \$8.00

#### **PRIVET** (for Hedges)

These are extensively used for hedges and screens, and are also planted among other shrubs for the beauty of their flowers and berries. They are hardy and vigorous, thriving in almost any fertile soil, and stand clipping.

- Chipping. JAPANESE PRIVET (Ligustrum Ibota).—A large shrub with upright branches. Leaves dark green and lustrous, tardily deciduous, or in the South nearly evergreen. Flowers white, in erect panicles. Splendid for hedges. Very similar to the English Privet so universally used for hedges. Very similar to the English Privet so universally used for hedges, the good account of itself in the North-West. 2 feet, doz. 22.50, 100 for \$18.00: 2 to 3 feet, doz. \$3.00, 100 for.
- NGLISH (Liguetrum vulgare).—One of the finest ornamental hedge plants grown. Very useful for hedges; can be clipped any shape. Grown as a single specimen it produces panicles of white flowers in June. The foliage is of a lighter green than the other sorts. Its black berries remain on the bush all winter, and are quite ornamental. The rich green leaves remain on the plants for a long time during winter. 14 to 2 feet, doz. \$1.25 postpaid; \$6.00 per 100 hy express. Larger Bushes, doz. \$1.75, 100 for \$9.00; 2 to 3 feet, doz. \$2.25, 100 for \$16.00.

#### **ROSA RUGOSA**

RAMANAS ROSE.—Both the red and white flowering forms of these beautiful roses are fast becoming popular as hedge plants, their bright, glossy foliage, which appears to be insect-proof, together with the showy, large single flowers, which are followed by bright red fruits, making them particularly desirable plants for the purpose. Effter Red or White, 3-year-old 30c, doz. \$3.00; strong 2-year-old plants, 100 \$20.00

# **RENNIE'S SEEDS ALWAYS GRO** THE BEST VEGETABLES AND THE FINEST FLOWERS

Product of Rennie's Seeds as seen at Toronto Exhibition in September, 1915

# Seeds. Bulbs and Plants Delivered Free to Your Door

We will prepay Parcel Postage on Vegetable, Flower, Field Root and Lawn Seeds at Packet, Ounce or Pound rates and at Five Pound rates on Beans, Corn and Peas.
 We will prepay Parcel Postage on all Roses, Shrubs and Bulbs.
 We reserve the right to send any parcel by Express Prepaid, should we find that it is cheaper to do so.
 We do not prepay Postage, Express or Freight charges on Grass Seed, Grain or Clover Seed, Implements, Fertilizers, Insecticides, Poultry Foods and Remedies (except where noted).
 Customers who order goods by Freight or Express and pay their own charges may deduct 10c. per pound from the prepaid prices in this catalogue.

#### **GENERAL DIRECTIONS TO CUSTOMERS**

OEDER EARLY.—It is very important that you should send your orders as early as possible on receipt of this Catalogue. We aim to ship all orders the same or next day after receipt, but during the busy season it is almost impossible, hence the importance of ordering early.
PRICES AND TERMS.—The prices quoted are those ruling at this date and are subject to fluctuations without notice. Our terms of payment are net cash. We do not send goods C.O.D.
HOW TO SEND MONEY.—Remittances may be made by Registered Letter, Postal Note, Post Office Order, Express Order or Bank Draft, and small sums in stamps.
BULBS AND PLANTS are sent by mall at prices quoted (except where otherwise noted), but we send larger stock when ordered by express at purchasers' expense. Add 1c. per oz. to all orders for the United States and 12c. per pound or fraction on all orders for Newfoundland.
SENDING PLANTS.—See page 78.
EXPRESS OR FREIGHT.—All Farm Seeds, Implements, Tools, etc., and Vegetable Seeds quoted by the peck or bushel, are at points from which ordered, either Toronto, Montreal, Winnipeg or Vancouver (except where otherwise noted), purchaser to pay transportation charges.
FLAG STATIONS.—Freight charges must be included or it will be necessary to reduce quantities to allow for freight, as the charges to flag stations must be prepaid.
SAFE ARELYAL of all packages. If Seeds, Plants, etc., are not received in a reasonable time, send exact copy of order, date sent, stating amount of remittance, kind of remittance (cash or money order), and we will investigate immediately.
KEEP A COPY OF YOUR ORDER.—Check goods received with your copy. Sometimes items may have to fol-

investigate immediately. **KEEP A COPY OF YOUR ORDER.**—Check goods received with your copy. Sometimes items may have to follow later, in which case a slip is enclosed with the goods. **CORRECTION OF ERRORS**—We take the utmost care in filling orders, always striving to please our customers. In case an error is made, we desire to be informed of the fact, and promise to make such corrections as will be satisfactory. Customers will please mention the P.O. from which order was sent, and always give order number. **UNSIGNED ORDERS**.—We frequently receive orders without the name of the sender or with insufficient address. Customers should be particular to give full Name, Post Office, County and Province, number of Street or P.O. Box, and the Nearest Express Office. **COMPLEINTS**.—No complaints will be considered that are not made within ten days after receipt of stock. **RESPONSIBILITY**.—No salesman or other employe of Wm. Rennie Co., Limited, has any authority to alter or modify any of the sales conditions printed in our Catalogues. All sales are made subject to acceptance by the firm.

ance by the firm.
